This certificate program is for students within the MS in Criminal Justice program only. The 15 credit online certificate in cybersecurity in criminal justice examines different areas within the growing cybersecurity field including cybercrime, digital forensics, and homeland security. Students will also have the opportunity to learn coding practices with a focus on how these skills are applied within the Criminal Justice System. The program itself does not require any previous coding experience and is an excellent choice for those looking to enhance their resume with a cybersecurity certificate.
