

CHEM 3451 - Biochemistry I

Fall 2025 Syllabus, Section 101, CRN 15935

Instructor Information

Dr. Melissa G. Carrizales
Email: melissa.carrizales@tamiu.edu
Office: LBV 259
Office Hours:
MWF 9:30 am - 10:30 am
Office Phone: 9563263121

Times and Location

MWF 10:50am-11:45am in Academic Innovation Center 223

Course Description

An introduction to modern biochemistry using fundamental chemical principles. Topics covered include proteins, carbohydrates, lipids, nucleic acids, bioenergetics, enzymology, and metabolism, with an emphasis on interrelationships between metabolic pathways and regulation. Cross-listed with BIOL 3451. Credit cannot be given for both BIOL 3451 and CHEM 3451. Laboratory fee applicable. Must be taken concurrently with CHEM 3051.

Prerequisites: BIOL 1306, 1106 and CHEM 2423 or permission of instructor.

Biology&Chemistry Department, College of Arts & Sciences

Additional Course Information

Course Expectations

- You must have the necessary background in the coursework, you must make an effort to stay current with the assigned readings, lectures and suggested study guides.
- Seek help from me whenever you don't understand something in and about the course. You may ask questions in class, where other students will also benefit from clarification. Alternatively, come see me during my office hours.
- What you learn will depend on your efforts in doing the reading assignments, attending class regularly, and asking for help when you need it. You should never feel that a question is too trivial. If you already understood everything about biochemistry, you wouldn't be taking this course.
- Note: There is a strong correlation between attendance in class and course grades; most students do better in the course by coming to class regularly, paying attention during lecture, taking notes, and reviewing notes. • Should there be an assignment (e.g. take home quizzes) given within the semester, no late assignments will be accepted. If you are absent on the date that an assignment is due and the absence is excused per university policy, you should submit it on the first day that you come to the lecture. I make announcements in class for which you will be held responsible, whether or not you are there. For example, a quiz may be announced. Perhaps an exam will need to be rescheduled. I will announce these kinds of changes in class. Not being in class would put you at a disadvantage if changes are made.

AI Policy

- AI (in any form) is not allowed during or for exams/quizzes.

Make-up Work

- If you miss an exam or a quiz due an unexcused absence it will be graded a ZERO. NO MAKE-UP exams or quizzes will be given for UNEXCUSED absence. A student will be permitted to take a missed exam/quiz due to an excused absence only. An excused absence is one that is verifiable,

such as sickness with doctor's certification or sponsored university activity (http://www.tamtu.edu/documents/absence_rules.pdf). A (1) written request with (2) attached excused absence verification/documentation must be submitted via email (melissa.carrizales@tamtu.edu) in order to request a make-up exam/quiz. Use subject: Request for Make-Up. The make-up exam/quiz will have to be taken within one week after the missed exam or no makeup exam can be given even for an excused absence. Therefore, make sure to make timely arrangements with the professor for a make-ups.

- Take note: I may schedule and may designate a date for all students or I may schedule individually to take the make-up exam/quiz. Again, a makeup exam/quiz will be given provided that you have an excused absence that is verifiable, such as sickness with doctor's certification or sponsored university activity.

*The syllabus is subject to change

Student Learning Outcomes

- At end of the course the student will gain a fundamental knowledge of biochemistry which will give the student an appreciation for this vast field and a solid background for graduate level/advanced biochemistry courses.
- The student should be able to discuss the concepts of pH and buffer system
- The student should be able to identify and describe the structure and function of biochemically important molecules.
- The student should be able to outline the steps, identify enzymes, substrates and products, and discuss the importance of the synthesis and degradation of different biomolecules.
- The student should be able to illustrate the integration of fundamental biochemical processes.

Important Dates

Visit the Academic Calendar ([tamtu.edu](http://www.tamtu.edu)) (<https://www.tamtu.edu/academiccalendar/>) page to view the term's important dates.

Textbooks

Group	Title	Author	ISBN
	Essential Biochemistry, 5th Edition	Charlotte W. Pratt, Kathleen Cornely	ISBN-13: 978-1119713203

Other Course Materials

- **Computer/Laptop**
- **Non-programmable scientific calculator**
- **Internet access**
- **Respondus LockDown Browser (Free) Requirement:**
 - This course requires the use of LockDown Browser for online quizzes and exams. Watch this short video (<http://www.respondus.com/products/lockdown-browser/student-movie.shtml>) to get a basic understanding of LockDown Browser.
 - Download Instructions
 - Click the Assist navigation link in Blackboard or visit TAMU's Respondus LockDown Browser and Respondus Monitor web page (<https://www.tamtu.edu/distance/technology/respondus-ldb-and-monitor.shtml>). Scroll down to the section on the Respondus LockDown Browser. Click the link to access the webpage for the software and additional information.
 - To Access Your Test
 - 1. First, be sure the Respondus LockDown Browser software is full installed on your computer.
 - 2. Open a regular web browser (Google Chrome, Mozilla Firefox, MS Edge, Safari)
 - 3. Log into Blackboard Learn.
 - 4. Navigate to the course and test.
 - 5. Start your attempt.
 - 6. This will launch the Respondus LockDown Browser software.
 - 7. Begin your test
 - Note: You won't be able to access tests with a standard web browser. If this is tried, an error message will indicate that the test requires the use of LockDown Browser. Simply start LockDown Browser and navigate back to the exam to continue.
- Guidelines

- When taking an online exam that requires LockDown Browser and a webcam, remember the following guidelines:
- Ensure you're in a location where you won't be interrupted
- Turn off all other devices (e.g. tablets, phones, second computers) and place them outside of your reach
- Before starting the test, know how much time is available for it, and also that you've allotted sufficient time to complete it
- Clear your desk or workspace of all external materials not permitted - books, papers, other devices
- Remain at your computer for the duration of the test
- If the computer, Wi-Fi, or location is different than what was used previously with the "Webcam Check" and "System & Network Check" in LockDown Browser, run the checks again prior to the exam
- To produce a good webcam video, do the following:
 - Avoid wearing baseball caps or hats with brims
 - Ensure your computer or device is on a firm surface (a desk or table). Do NOT have the computer on your lap, a bed, or another surface where the device (or you) are likely to move
 - If using a built-in webcam, avoid readjusting the tilt of the screen after the webcam setup is complete
 - Take the exam in a well-lit room, but avoid backlighting (such as sitting with your back to a window)
 - Remember that LockDown Browser will prevent you from accessing other websites or applications; you will be unable to exit the test until all questions are completed and submitted
- Getting Help
 - Several resources are available if you encounter problems with LockDown Browser.
 - The Windows and Mac versions of LockDown Browser have a "Help Center" button on the toolbar. Use the "System & Network Check" to troubleshoot issues.
 - If you have problems downloading, installing, or taking a test with Respondus LockDown Browser, email the TAMIU eLearning Team at elearning@tamui.edu. The office is located at Dr. Billy F. Cowart Hall 208 and is open Monday through Friday, from 8am to 6pm.

Grading Criteria

Grading and Course Requirements: The lecture grade makes up 75% while the lab grade contributes 25% of the course grade. It is less likely that a student can pass the course without passing both the lecture and the laboratory. Quizzes are announced in class. Please follow course and university policies when requesting a make-up! I may give unannounced/surprise quizzes. Only excused absences will receive make-ups for unannounced/surprise quizzes.

Below is the list of the lecture requirements and their corresponding percentages.

- **Exam 1: 18%**
- **Exam 2: 20%**
- **Exam 3: 18%**
- **Quizzes: 20%**
- **Final Exam: 24%**
 - Exams can consist of a combination of objective type questions e.g. multiple choices, identification and challenging questions e.g. problem solving and analysis, answering questions. Questions will be basic and applied.
 - Quizzes can also consist of a combination of objective type questions e.g. multiple choices, identification and challenging questions e.g. problem solving and analysis, answering questions.
 - Books, notes, cell phones, computers or any technical/electrical gadgets are NOT allowed to be on sight and in use 5 minutes before the quiz/exam and during the quiz/exam (whether a regular or make-up quiz/exam).

GRADE	PERCENTAGE
A	90-100
B	80-89.99
C	70-79.99
D	60-69.99
F	Below 60

Schedule of Topics and Assignments

Day	Date	Agenda/Topic	Reading(s)	Due
Mon	8/25	Syllabus, Class Policies	Syllabus	
Wed	8/27	Chemical Basis of Life	Ch 1	
Fri	8/29	Aqueous Chemistry	Ch 2	
Mon	9/1	Aqueous Chemistry	Ch 2	
Wed	9/3	Protein Structure	Ch 4	
Fri	9/5	Protein Structure	Ch 4	
Mon	9/8	Protein Function	Ch 5	
Wed	9/10	Protein Function	Ch 5	
Fri	9/12	How Enzymes Work	Ch 6	
Mon	9/15	How Enzymes Work	Ch 6	
Wed	9/17	How Enzymes Work	Ch 6	
Fri	9/19	Enzymes Kinetics and Inhibition	Ch 7	
Mon	9/22	Enzymes Kinetics and Inhibition	Ch 7	
Wed	9/24	Enzymes Kinetics and Inhibition	Ch 7	
Fri	9/26	EXAM 1 (Ch 1-2; 4-7)		
Mon	9/29	Carbohydrates	Ch 11	
Wed	10/1	Carbohydrates	Ch 11	
Fri	10/3	Metabolism & Bioenergetics	Ch 12	
Mon	10/6	Metabolism & Bioenergetics	Ch 12	
Wed	10/8	Glucose Metabolism	Ch 13	
Fri	10/10	Glucose Metabolism	Ch 13	
Mon	10/13	Glucose Metabolism	Ch 13	
Wed	10/15	Glucose Metabolism	Ch 13	
Fri	10/17	Citric Acid Cycle	Ch 14	
Mon	10/20	Citric Acid Cycle	Ch 14	
Wed	10/22	Citric Acid Cycle	Ch 14	
Fri	10/24	Oxidative Phosphorylation	Ch 15	
Mon	10/27	Oxidative Phosphorylation	Ch 15	
Wed	10/29	Oxidative Phosphorylation	Ch 15	
Fri	10/31	EXAM 2 (Ch 11 – 15)		
Mon	11/3	Lipids and Lipid Metabolism	Ch 8-1; 17	
Wed	11/5	Lipids and Lipid Metabolism	Ch 8-1; 17	
Fri	11/7	Lipids and Lipid Metabolism	Ch 8-1; 17	
Mon	11/10	Nitrogen Metabolism	Ch 18	
Wed	11/12	Nitrogen Metabolism	Ch 18	
Fri	11/14	Nitrogen Metabolism	Ch 18	
Mon	11/17	DNA Replication and Repair	Ch 20	
Wed	11/19	DNA Replication and Repair	Ch 20	
Fri	11/21	DNA Replication and Repair	Ch 20	
Mon	11/24	Transcription and RNA	Ch 21	
Wed	11/26	Reading Day, NO CLASS		
Fri	11/28	Thanksgiving Holiday, NO CLASS		
Mon	12/1	EXAM 3 (Ch 8-1; 17; 18; 20-21)		
Wed	12/3	NO CLASS		

Fri	12/5	COMPREHENSIVE FINAL EXAM 10:50 am – 1:50 pm https://www.tamtu.edu/registrar/finalexamschedule.shtml
Mon	12/8	NO CLASS
Wed	12/10	NO CLASS

University/College Policies

Please see the University Policies below.

COVID-19 Related Policies

If you have tested positive for COVID-19, please refer to the Student Handbook, Appendix A (Attendance Rule) for instructions.

Required Class Attendance

Students are expected to attend every class in person (or virtually, if the class is online) and to complete all assignments. If you cannot attend class, it is your responsibility to communicate absences with your professors. The faculty member will decide if your excuse is valid and thus may provide lecture materials of the class. According to University policy, acceptable reasons for an absence, which cannot affect a student's grade, include:

- Participation in an authorized University activity.
- Death or major illness in a student's immediate family.
- Illness of a dependent family member.
- Participation in legal proceedings or administrative procedures that require a student's presence.
- Religious holy day.
- Illness that is too severe or contagious for the student to attend class.
- Required participation in military duties.
- Mandatory admission interviews for professional or graduate school which cannot be rescheduled.

Students are responsible for providing satisfactory evidence to faculty members within seven calendar days of their absence and return to class. They must substantiate the reason for the absence. If the absence is excused, faculty members must either provide students with the opportunity to make up the exam or other work missed, or provide a satisfactory alternative to complete the exam or other work missed within 30 calendar days from the date of absence. Students who miss class due to a University-sponsored activity are responsible for identifying their absences to their instructors with as much advance notice as possible.

Classroom Behavior (applies to online or Face-to-Face Classes)

TAMU encourages classroom discussion and academic debate as an essential intellectual activity. It is essential that students learn to express and defend their beliefs, but it is also essential that they learn to listen and respond respectfully to others whose beliefs they may not share. The University will always tolerate different, unorthodox, and unpopular points of view, but it will not tolerate condescending or insulting remarks. When students verbally abuse or ridicule and intimidate others whose views they do not agree with, they subvert the free exchange of ideas that should characterize a university classroom. If their actions are deemed by the professor to be disruptive, they will be subject to appropriate disciplinary action (please refer to Student Handbook Article 4).

TAMU Honor Code: Plagiarism and Cheating

As a TAMU student, you are bound by the TAMU Honor Code to conduct yourself ethically in all your activities as a TAMU student and to report violations of the Honor Code. Please read carefully the Student Handbook Article 7 and Article 10 available at <https://www.tamtu.edu/scce/studenthandbook.shtml> (<https://www.tamtu.edu/scce/studenthandbook.shtml/>).

We are committed to strict enforcement of the Honor Code. Violations of the Honor Code tend to involve claiming work that is not one's own, most commonly plagiarism in written assignments and any form of cheating on exams and other types of assignments.

Plagiarism is the presentation of someone else's work as your own. It occurs when you:

1. Borrow someone else's facts, ideas, or opinions and put them entirely in your own words. You must acknowledge that these thoughts are not your own by immediately citing the source in your paper. Failure to do this is plagiarism.
2. Borrow someone else's words (short phrases, clauses, or sentences), you must enclose the copied words in quotation marks as well as citing the source. Failure to do this is plagiarism.

3. Present someone else's paper or exam (stolen, borrowed, or bought) as your own. You have committed a clearly intentional form of intellectual theft and have put your academic future in jeopardy. This is the worst form of plagiarism.

Here is another explanation from the 2020, seventh edition of the Manual of The American Psychological Association (APA):

"Plagiarism is the act of presenting the words, idea, or images of another as your own; it denies authors or creators of content the credit they are due. Whether deliberate or unintentional, plagiarism violates ethical standards in scholarship" (p. 254). This same principle applies to the illicit use of AI.

Plagiarism: Researchers do not claim the words and ideas of another as their own; they give credit where credit is due. Quotations marks should be used to indicate the exact words of another. Each time you paraphrase another author (i.e., summarize a passage or rearrange the order of a sentence and change some of the words), you need to credit the source in the text. The key element of this principle is that authors do not present the work of another as if it were their own words. This can extend to ideas as well as written words. If authors model a study after one done by someone else, the originating author should be given credit. If the rationale for a study was suggested in the discussion section of someone else's article, the person should be given credit. Given the free exchange of ideas, which is very important for the health of intellectual discourse, authors may not know where an idea for a study originated. If authors do know, however, they should acknowledge the source; this includes personal communications (p. 11). For guidance on proper documentation, consult the Academic Success Center or a recommended guide to documentation and research such as the Manual of the APA or the MLA Handbook for Writers of Research Papers. If you still have doubts concerning proper documentation, seek advice from your instructor prior to submitting a final draft.

TAMU has penalties for plagiarism and cheating.

- **Penalties for Plagiarism:** Should a faculty member discover that a student has committed plagiarism, the student should receive a grade of 'F' in that course and the matter will be referred to the Honor Council for possible disciplinary action. The faculty member, however, may elect to give freshmen and sophomore students a "zero" for the assignment and to allow them to revise the assignment up to a grade of "F" (50%) if they believe that the student plagiarized out of ignorance or carelessness and not out of an attempt to deceive in order to earn an unmerited grade; the instructor must still report the offense to the Honor Council. This option should not be available to juniors, seniors, or graduate students, who cannot reasonably claim ignorance of documentation rules as an excuse. For repeat offenders in undergraduate courses or for an offender in any graduate course, the penalty for plagiarism is likely to include suspension or expulsion from the university.
 - **Caution:** Be very careful what you upload to Turnitin or send to your professor for evaluation. Whatever you upload for evaluation will be considered your final, approved draft. If it is plagiarized, you will be held responsible. The excuse that "it was only a draft" will not be accepted.
 - **Caution:** Also, do not share your electronic files with others. If you do, you are responsible for the possible consequences. If another student takes your file of a paper and changes the name to his or her name and submits it and you also submit the paper, we will hold both of you responsible for plagiarism. It is impossible for us to know with certainty who wrote the paper and who stole it. And, of course, we cannot know if there was collusion between you and the other student in the matter.
- **Penalties for Cheating:** Should a faculty member discover a student cheating on an exam or quiz or other class project, the student should receive a "zero" for the assignment and not be allowed to make the assignment up. The incident should be reported to the chair of the department and to the Honor Council. If the cheating is extensive, however, or if the assignment constitutes a major grade for the course (e.g., a final exam), or if the student has cheated in the past, the student should receive an "F" in the course, and the matter should be referred to the Honor Council. Additional penalties, including suspension or expulsion from the university may be imposed. Under no circumstances should a student who deserves an "F" in the course be allowed to withdraw from the course with a "W."
 - **Caution:** Chat groups that start off as "study groups" can easily devolve into "cheating groups." Be very careful not to join or remain any chat group if it begins to discuss specific information about exams or assignments that are meant to require individual work. If you are a member of such a group and it begins to cheat, you will be held responsible along with all the other members of the group. The TAMU Honor Code requires that you report any such instances of cheating.
- **Student Right of Appeal:** Faculty will notify students immediately via the student's TAMU e-mail account that they have submitted plagiarized work. Students have the right to appeal a faculty member's charge of academic dishonesty by notifying the TAMU Honor Council of their intent to appeal as long as the notification of appeal comes within 10 business days of the faculty member's e-mail message to the student and/or the Office of Student Conduct and Community Engagement. The Student Handbook provides more details.

Use of Work in Two or More Courses

You may not submit work completed in one course for a grade in a second course unless you receive explicit permission to do so by the instructor of the second course. In general, you should get credit for a work product only once.

AI Policies

Your instructor will provide you with their personal policy on the use of AI in the classroom setting and associated coursework.

TAMU E-Mail and SafeZone

Personal Announcements sent to students through TAMU E-mail (tamiu.edu or dusty email) are the official means of communicating course and university business with students and faculty –not the U.S. Mail and no other e-mail addresses. Students and faculty must check their TAMU e-mail

accounts regularly, if not daily. Not having seen an important TAMIU e-mail or message from a faculty member, chair, or dean is not accepted as an excuse for failure to take important action.

Students, faculty, and staff are encouraged to download the SafeZone app, which is a free mobile app for all University faculty, staff, and students. SafeZone allows you to: report safety concerns (24/7), get connected with mental health professionals, activate location sharing with authorities, and anonymously report incidents. Go to <https://www.tamiau.edu/adminis/police/safezone/index.shtml> for more information.

Copyright Restrictions

The Copyright Act of 1976 grants to copyright owners the exclusive right to reproduce their works and distribute copies of their work. Works that receive copyright protection include published works such as a textbook. Copying a textbook without permission from the owner of the copyright may constitute copyright infringement. Civil and criminal penalties may be assessed for copyright infringement. Civil penalties include damages up to \$100,000; criminal penalties include a fine up to \$250,000 and imprisonment. Copyright laws do not allow students and professors to make photocopies of copyrighted materials, but you may copy a limited portion of a work, such as article from a journal or a chapter from a book for your own personal academic use or, in the case of a professor, for personal, limited classroom use. In general, the extent of your copying should not suggest that the purpose or the effect of your copying is to avoid paying for the materials. And, of course, you may not sell these copies for a profit. Thus, students who copy textbooks to avoid buying them or professors who provide photocopies of textbooks to enable students to save money are violating the law.

Students with Disabilities

Texas A&M International University seeks to provide reasonable accommodations for all qualified persons with disabilities. This University will adhere to all applicable federal, state, and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal education opportunity. It is the student's responsibility to register with the Office of Student Counseling and Disability Services located in Student Center 126. This office will contact the faculty member to recommend specific, reasonable accommodations. Faculty are prohibited from making accommodations based solely on communications from students. They may make accommodations only when provided documentation by the Student Counseling and Disability Services office.

Student Attendance and Leave of Absence (LOA) Policy

As part of our efforts to assist and encourage all students towards graduation, TAMIU provides LOA's for students, including pregnant/parenting students, in accordance with the Attendance Rule (Section 3.07) and the Student LOA Rule (Section 3.08), which includes the "Leave of Absence Request" form. Both rules can be found in the TAMIU Student Handbook (URL: <http://www.tamiau.edu/studentaffairs/StudentHandbook1.shtml> (<http://www.tamiau.edu/studentaffairs/StudentHandbook1.shtml/>)).

Pregnant and Parenting Students

Under Title IX of the Education Amendments of 1972, harassment based on sex, including harassment because of pregnancy or related conditions, is prohibited. A pregnant/parenting student must be granted an absence for as long as the student's physician deems the absence medically necessary. It is a violation of Title IX to ask for documentation relative to the pregnant/parenting student's status beyond what would be required for other medical conditions. If a student would like to file a complaint for discrimination due to his or her pregnant/parenting status, please contact the TAMIU Title IX Coordinator (Lorissa M. Cortez, 5201 University Boulevard, KLM 159B, Laredo, TX 78041, TitleIX@tamiau.edu, 956.326.2857) and/or the Office of Civil Rights (Dallas Office, U.S. Department of Education, 1999 Bryan Street, Suite 1620, Dallas, TX 75201-6810, 214.661.9600). You can also report it on TAMIU's anonymous electronic reporting site: <https://www.tamiau.edu/reportit> (<https://www.tamiau.edu/reportit/>).

TAMIU advises a pregnant/parenting student to notify their professor once the student is aware that accommodations for such will be necessary. It is recommended that the student and professor develop a reasonable plan for the student's completion of missed coursework or assignments. The Office of Equal Opportunity and Diversity (Lorissa M. Cortez, lorissam.cortez@tamiau.edu) can assist the student and professor in working out the reasonable accommodations. For other questions or concerns regarding Title IX compliance related to pregnant/parenting students at the University, contact the Title IX Coordinator. In the event that a student will need a leave of absence for a substantial period of time, TAMIU urges the student to consider a Leave of Absence (LOA) as outlined in the TAMIU Student Handbook. As part of our efforts to assist and encourage all students towards graduation, TAMIU provides LOA's for students, including pregnant/parenting students, in accordance with the Attendance Rule and the Student LOA Rule. Both rules can be found in the TAMIU Student Handbook (<https://www.tamiau.edu/scce/studenthandbook.shtml> (<https://www.tamiau.edu/scce/studenthandbook.shtml/>)).

Anti-Discrimination/Title IX

TAMIU does not discriminate or permit harassment against any individual on the basis of race, color, sex, religion, national origin, age, disability, genetic information, veteran status, educational programs, or employment. If you would like to file a complaint relative to Title IX or any civil rights violation, please contact the TAMIU Director of Equal Opportunity and Diversity/Title IX Coordinator, Lorissa M. Cortez, 5201 University Boulevard, Killam Library 159B, Laredo, TX 78041, TitleIX@tamiau.edu, 956.326.2857, via the anonymous electronic reporting website, ReportIt, at <https://www.tamiau.edu/reportit> (<https://www.tamiau.edu/reportit/>), and/or the Office of Civil Rights (Dallas Office), U.S. Department of Education, 1999 Bryan Street, Suite 1620, Dallas, TX 75201-6810, 214.661.9600.

Incompletes

Students who are unable to complete a course should withdraw from the course before the final date for withdrawal and receive a “W.” To qualify for an “incomplete” and thus have the opportunity to complete the course at a later date, a student must meet the following criteria:

1. The student must have completed 90% of the course work assigned before the final date for withdrawing from a course with a “W”, and the student must be passing the course;
2. The student cannot complete the course because an accident, an illness, or a traumatic personal or family event occurred after the final date for withdrawal from a course;
3. The student must sign an “Incomplete Grade Contract” and secure signatures of approval from the professor and the college dean.
4. The student must agree to complete the missing course work before the end of the next long semester; failure to meet this deadline will cause the “I” to automatically be converted to an “F”; extensions to this deadline may be granted by the dean of the college. This is the general policy regarding the circumstances under which an “incomplete” may be granted, but under exceptional circumstances, a student may receive an incomplete who does not meet all of the criteria above if the faculty member, department chair, and dean recommend it.

WIN Contracts

The Department of Biology and Chemistry does not permit WIN contracts. For other departments within the college, WIN Contracts are offered only under exceptional circumstances and are limited to graduating seniors. Only courses offered by full-time TAMIU faculty or TAMIU instructors are eligible to be contracted for the WIN requirement. However, a WIN contract for a course taught by an adjunct may be approved, with special permission from the department chair and dean. Students must seek approval before beginning any work for the WIN Contract. No student will contract more than one course per semester. Summer WIN Contracts must continue through both summer sessions.

Student Responsibility for Dropping a Course

It is the responsibility of the student to drop the course before the final date for withdrawal from a course. Faculty members, in fact, may not drop a student from a course without getting the approval of their department chair and dean.

Independent Study Course

Independent Study (IS) courses are offered only under exceptional circumstances. Required courses intended to build academic skills may not be taken as IS (e.g., clinical supervision and internships). No student will take more than one IS course per semester. Moreover, IS courses are limited to seniors and graduate students. Summer IS course must continue through both summer sessions.

Grade Changes & Appeals

Faculty are authorized to change final grades only when they have committed a computational error or an error in recording a grade, and they must receive the approval of their department chairs and the dean to change the grade. As part of that approval, they must attach a detailed explanation of the reason for the mistake. Only in rare cases would another reason be entertained as legitimate for a grade change. A student who is unhappy with his or her grade on an assignment must discuss the situation with the faculty member teaching the course. If students believe that they have been graded unfairly, they have the right to appeal the grade using a grade appeal process in the Student Handbook and in the Faculty Handbook.

Final Examination

All courses in all colleges must include a comprehensive exam or performance and be given on the date and time specified by the Academic Calendar and the Final Exam schedule published by the Registrar’s Office. In the College of Arts & Sciences all final exams must contain a written component. The written component should comprise at least 20% of the final exam grade. Exceptions to this policy must receive the approval of the department chair and the dean at the beginning of the semester.

Mental Health and Well-Being

The university aims to provide students with essential knowledge and tools to understand and support mental health. As part of our commitment to your well-being, we offer access to Telus Health, a service available 24/7/365 via chat, phone, or webinar. Scan the QR code to download the app and explore the resources available to you for guidance and support whenever you need it. The Telus app is available to download directly from TELUS (tamiu.edu) (<https://www.tamiu.edu/counseling/telus/>) or from the Apple App Store and Google Play.
