CRIJ 5322 - Homeland Security: Homeland Security (Sub II- Oct 20 to Dec 09)
Fall 2025 Syllabus, Section 780, CRN 17434

Instructor Information

Dr. Huseyin Cinoglu
Associate Professor of Criminal Justice
Email: huseyin.cinoglu@tamiu.edu
Office: AIC 352
Office Hours:
Wed. 4 - 6 PM
Office Phone: 956-326-3365
Virtual Microsoft Teams meetings are available upon request

Times and Location

Does Not Meet Face-to-Face

Course Description

Additional Course Information

IMPORTANT TO KNOW

1. All times in this syllabus are in U.S. Central Time (CT). Students are responsible for adjusting due dates accordingly.

2. Homeland security, terrorism, and intelligence are reactive and ever-changing fields. The instructor reserves the right to amend the syllabus as needed. Students must check Blackboard and TAMIU emails frequently for updates.

3. As this is an ***abbreviated but a compressed online course***, staying current with weekly readings and assignments is crucial. Students should log into Blackboard and check emails daily. Office hours are available for guidance, and additional meetings can be scheduled by email.

4. Weekly assignments will be posted on Mondays at 12:01 AM CT and remain open until Sunday at 11:59 PM CT. After this period, weekly modules may be replaced with new content.

5. Blackboard will host announcements, drop boxes, discussion topics, PowerPoints, readings, videos, and other materials to support your success. Use discussion forums to engage with peers, share ideas, and foster collaborative learning.

6. Respect for differing opinions is expected. Sexist, racist, or discriminatory behavior will not be tolerated and will be addressed per TAMIU policies.

7. Netiquette must be observed during online activities. Refer to the Student Handbook (https://www.tamiu.edu/scce/studenthandbook.shtml) for details.

Communication with the instructor

1. For questions about the course or topics, email me at **huseyin.cinoglu@tamiu.edu**. I aim to reply within 48 business hours, excluding weekends and holidays.

2. Emails should be clear, concise, and respectful. ***Include the course title (in the subject line) and your full name*** as listed on the class roster.

3.Check Blackboard regularly for announcements and messages, as it is your responsibility to stay updated.

4.To meet with me, visit during office hours or email to schedule an appointment. Microsoft Teams meetings are also available at **Click here to book an in-person or virtual Microsoft Teams Meeting**.

5.You may also reach me at my office phone **956.326.3365.** If I am unavailable, please leave a message.

GENERATIVE AI USE

Your work must reflect **your original ideas** and critical thinking. Assignments will be submitted through **Turnitin**, which checks for plagiarism and assesses the use of Generative AI tools. External tools may also be used to verify AI-generated content.

While this course encourages exploring AI tools in **designated activities** to understand their relevance in Homeland Security research, the following guidelines apply:

1. **AI Use in Assignments:** Outside of approved tasks, AI tools (e.g., ChatGPT, image/video generators) should not create content included in your work.
2. **Transparency:** If you use AI, clearly label **AI-generated sections** and distinguish them from your original contributions.
3. **Limitations:** AI-generated content must be at most **25%** of any assignment. Submissions exceeding this limit may not be accepted or graded.

Please Note: This is my general policy for all my classes. If certain parts (e.g., writing assignments) do not apply to this course, you may disregard them.

Key Reminder: AI tools can assist but cannot replace your ability to analyze, synthesize, and engage critically with course material. Please get in touch with me before submitting your work if you need clarification on these expectations.

Student Learning Outcomes

The primary goal of this course is to give you an understanding of the underlying theories for designing an effective homeland security enterprise, as well as how government agencies are configured to carry out the mission of protecting the homeland from terrorist threats. You will be challenged to critically assess the modern homeland security environment and specific domestic threat scenarios. You will also be challenged to evaluate whether the configuration of homeland security systems is an effective system for countering the terrorist threat--indeed, can an absolutely secure system be designed? After participating in this course, you will:

•   Analyze how American public administrative agencies, including law enforcement and national security agencies, deal with the problem of securing the nation from the possibility of violence emanating from domestic and international extremists.

•   Understand the underlying theories that explain the origins of homeland security systems, and how one should define "homeland security."

•   Apply theory and cases to differentiate the modern homeland security and terrorist environments from past environments.

•   Demonstrate familiarity with the different systems which make up the homeland security enterprise.

Important Dates

Visit the Academic Calendar (tamiu.edu) (https://www.tamiu.edu/academiccalendar/) page to view the term's important dates.

Textbooks

Group	Title	Author	ISBN
Required	Understanding Homeland Security, fourth edition. Sage Publications.	Martin, G. (2023).	

Other Course Materials

Weekly extra material (e.g., readings, assignments, discussions, videos, etc.) will be posted on Blackboard throughout the semester.

Grading Criteria

This course is designed as a 7-week, abbreviated and compressed, 100% online course. Each week, the instructor will upload a module (a module is basically a folder named after the week, such as Week 1). Other than weekly assigned chapters from the textbook, the instructor may assign extra readings, discussion topics, and/or links to relevant videos (these will appear in each module).

DISCUSSION POSTS

A minimum of a two separate discussion posts @ 20 points total for Weeks 1, 2, 3, 5, and 6 for a total of 100 points.

Discussion topics for Weeks 1, 2, 3, 5, and 6 discussion topics will be posted in that week's module. You are expected to post at least **two discussions per week**:

1. Your first post should present an **educated opinion** based on the week's reading material, with proper citations.
2. Your second post should be a **response to another student's post**, sharing your opinion or insights.
3. Each post must be at least **one full paragraph (around 7 sentences)**.
4. Submit 10 posts (2 per week for 5 weeks) worth up to 10 points each. The maximum total is 100 points.
5. You are welcome to post more than twice and use the threads to ask questions or engage with others.
6. Posts are due every **Sunday by 11:59 PM**.

A document containing two sample posts, detailed instructions, and a rubric is posted in the Rubrics folder on Blackboard.

EXAMS

Midterm Exam & Final Exam @ 100 points each and 200 points in total:

There will be two non-cumulative exams in this course. Exams are specifically designed to have students elaborate on the topics covered up to that point. They will be comprised of open-ended essay questions. Students will have a week to adequately answer the questions. These exams will help students synthesize multiple topics and perspectives.

A)MIDTERM EXAM:

100 points. Due by Sunday, November 16, by 11:59 PM.

In Week 4, five open-ended essay questions will be posted. Students must answer **four of the five** questions for the midterm exam.

• Each essay question is worth **22.5 points**, and **10 points** will be awarded for a perfect bibliography, making the midterm worth a maximum of **100 points**.
• If a student answers all five questions, only the first four will be graded.
• Questions will cover content from **Weeks 1, 2, and 3**, including textbook chapters, extra readings, videos, handouts, and discussion posts.
• Midterm exam questions will be posted with the **Week 4 module** and are **due by Sunday midnight**. Students will have about a week to complete the exam. Additional details will be provided in the Week 4 module.

Format and Submission Requirements:

Answers must be:

• **Double-spaced**
• Written in **Times New Roman, 12-point font**
• Saved as a Word document and submitted via Turnitin in Dropbox, I will create the instructions.
• Each essay answer must be **at least 1 page long**, totaling **at least 4 double-spaced pages** for the exam.
• Cite **at least one external source** (beyond the textbook) per answer, requiring a total of **4 unique external sources**.
• Sources should be scholarly articles, books, textbooks, or reputable reports (government or research institutions). You may use articles selected for the article summary assignment.
• Include an **APA-style bibliography** (not part of the page count).

B)FINAL EXAM:

*100 points. Due by **Tuesday**, December 9, by 11:59 PM*

The final exam will be posted with the **Week 7 module**, and you will have about a week to complete it.

- The exam consists of **five open-ended essay questions**, and you must answer **four of the five**.
- If you choose to answer all five questions, each answer will be graded, and the **highest four scores** will be used for your final grade.
- The final exam is **not cumulative** and covers material from **Weeks 4, 5, 6, and 7**.
- Each essay question is worth **22.5 points**, with an additional **10 points** for a perfect bibliography, for a total of **100 points**.

Format and Submission Requirements:

- Answers must be:
  - **Double-spaced**
  - Written in **Times New Roman, 12-point font**
  - Saved as a Word document and submitted via Turnitin or SafeAssign as instructed.
- Each answer must be **at least 1 page long**, totaling **at least 4 pages** for the exam.
- Cite **at least two external sources** (beyond the textbook) per answer, requiring a total of **eight unique external sources**.
- Include an **APA-style bibliography** (not part of the page count).
- External sources must be scholarly articles, books, textbooks, or reputable reports (government or research institutions). Articles from the article summary assignment may also be used.

ARTICLE SUMMARIES

Five Article Summary assignments @ 20 points each for Weeks 1, 2, 3, 5, and 6 for a total of 100 points

Each student will write 5 article summaries throughout the semester.

For weeks 1, 2, 3, 5, and 6, you are required to find a recent research article related to the unit's theme. The article should have been published in a scholarly journal within the last five years, and you will need to access it through the virtual library.

Students will be responsible for writing at least 2 pages summarizing their chosen article.

The deadline for each article summary paper will be Sunday by 11:59 PM of the relevant week. Each summary paper should be double-spaced, in Times New Roman, in 12-point font, saved and uploaded in a Word document, and must be submitted through the assigned Dropbox on BB.

A Document containing a sample summary, detailed instructions, and a rubric is posted in the Rubrics folder on Blackboard.

All assignments (article summary papers, midterm and final exams) should be submitted through designated BB Dropbox. Discussion posts do not need to go through Turnitin.

Borderline grades will not be rounded up or down.

GRADE	PERCENTAGE
A	91-100
B	80-90.9
C	70-79.9
D	60-69.9
F	Below 60

Open Boilerplate

ASSESSMENTS POINTS

ASSIGNMENT	VALUE
Ten Discussion Posts: 2 per week in Weeks 1, 2, 3, 5, & 6 @ 10 points each	100
Five Article Summary Papers: Weeks 1, 2, 3, 5, & 6 @ 20 points each	100
Midterm Exam	100
Final Exam	100
TOTAL	400

Schedule of Topics and Assignments

Week of	Reading(s)	Due
10/20	Welcome and syllabus (Virtual meeting on Oct 21, between 7:15 and 8:00 PM on Blackboard Collaborate. Chapter 1: History and Policy: Defining Homeland Security Chapter 2: Homeland Security and the All-Hazards Umbrella	DUE: Two discussion posts, due by Sunday midnight. DUE: Article Summary, due by Sunday midnight.
10/27	Chapter 3: The Legal Foundations of Homeland Security Chapter 4: Civil Liberties and Securing the Homeland	DUE: Two discussion posts, due by Sunday midnight. DUE: Article Summary, due by Sunday midnight.
11/3	Chapter 5: Agencies and Missions: Homeland Security at the Federal Level Chapter 6: Prediction and Prevention: The Role of Intelligence	DUE: Two discussion posts, due by Sunday midnight. DUE: Article Summary, due by Sunday midnight.
11/10	Chapter 7: Agencies and Missions: Homeland Security at the State and Local Levels Chapter 8: Sea Change: The New Terrorism and Homeland Security	Midterm exam due on Sunday, Nov 16 @ 11:59 PM. The exam covers the material on Weeks 1, 2, and 3.
11/17	Chapter 9: The Threat at Home: Terrorism in the United States Chapter 10: Porous Nodes: Specific Vulnerabilities Chapter 11: Always Vigilant: Hardening the Target	DUE: Two discussion posts, due by Sunday midnight. DUE: Article Summary, due by Sunday midnight.
11/24	Chapter 12: Critical Resources: Resilience and Planning Chapter 13: Critical Outcomes: Response and Recovery	DUE: Two discussion posts, due by Sunday midnight. DUE: Article Summary, due by Sunday midnight.
12/1	Chapter 14: The Future of Homeland Security	
12/8		Final Exam due on Tuesday, December 9 @ 11:59 PM. The exam covers the material on Weeks 4, 5, 6, and 7 Final Grades will be posted on Uconnect on Dec 16.

University/College Policies

Please see the University Policies below.

COVID-19 Related Policies

If you have tested positive for COVID-19, please refer to the Student Handbook, Appendix A (Attendance Rule) for instructions.

Required Class Attendance

Students are expected to attend every class in person (or virtually, if the class is online) and to complete all assignments. If you cannot attend class, it is your responsibility to communicate absences with your professors. The faculty member will decide if your excuse is valid and thus may provide lecture materials of the class. According to University policy, acceptable reasons for an absence, which cannot affect a student's grade, include:

- Participation in an authorized University activity.
- Death or major illness in a student's immediate family.
- Illness of a dependent family member.
- Participation in legal proceedings or administrative procedures that require a student's presence.
- Religious holy day.
- Illness that is too severe or contagious for the student to attend class.
- Required participation in military duties.
- Mandatory admission interviews for professional or graduate school which cannot be rescheduled.

Students are responsible for providing satisfactory evidence to faculty members within seven calendar days of their absence and return to class. They must substantiate the reason for the absence. If the absence is excused, faculty members must either provide students with the opportunity to make up the exam or other work missed, or provide a satisfactory alternative to complete the exam or other work missed within 30 calendar days from the date of absence. Students who miss class due to a University-sponsored activity are responsible for identifying their absences to their instructors with as much advance notice as possible.

Classroom Behavior (applies to online or Face-to-Face Classes)

In the classroom, students are expected to listen attentively, participate respectfully, and adhere to established rules. Behavior that interferes with the class lecture may result in disciplinary action, ensuring a productive and respectful learning environment for everyone. Any disputes over academic matters should be addressed calmly and constructively, ideally during designated times such as office hours or after class. If a student does not agree with a decision, they can request a meeting with the instructor to discuss their concerns in more detail. Should further resolution be needed, the student may escalate the matter to the department head or use formal grievance procedures as outlined in the sections below. (please refer to Student Handbook Article 4 (https://www.tamiu.edu/handbook/article-04.shtml)).

TAMIU Honor Code: Plagiarism and Cheating

As a TAMIU student, you are bound by the TAMIU Honor Code to conduct yourself ethically in all your activities as a TAMIU student and to report violations of the Honor Code. Please read carefully the Student Handbook Article 7 and Article 10 available at Student Handbook (https://www.tamiu.edu/handbook/index.shtml).

We are committed to strict enforcement of the Honor Code. Violations of the Honor Code tend to involve claiming work that is not one's own, most commonly plagiarism in written assignments and any form of cheating on exams and other types of assignments.

Plagiarism is the presentation of someone else's work as your own. It occurs when you:

1. Borrow someone else's facts, ideas, or opinions and put them entirely in your own words. You must acknowledge that these thoughts are not your own by immediately citing the source in your paper. Failure to do this is plagiarism.
2. Borrow someone else's words (short phrases, clauses, or sentences), you must enclose the copied words in quotation marks as well as citing the source. Failure to do this is plagiarism.
3. Present someone else's paper or exam (stolen, borrowed, or bought) as your own. You have committed a clearly intentional form of intellectual theft and have put your academic future in jeopardy. This is the worst form of plagiarism.

Here is another explanation from the 2020, seventh edition of the Manual of The American Psychological Association (APA):

"Plagiarism is the act of presenting the words, idea, or images of another as your own; it denies authors or creators of content the credit they are due. Whether deliberate or unintentional, plagiarism violates ethical standards in scholarship" (p. 254). This same principle applies to the illicit use of AI.

Plagiarism: Researchers do not claim the words and ideas of another as their own; they give credit where credit is due. Quotations marks should be used to indicate the exact words of another. Each time you paraphrase another author (i.e., summarize a passage or rearrange the order of a sentence and change some of the words), you need to credit the source in the text. The key element of this principle is that authors do not present the work of another as if it were their own words. This can extend to ideas as well as written words. If authors model a study after one done by someone else, the originating author should be given credit. If the rationale for a study was suggested in the discussion section of someone else's article, the person should be given credit. Given the free exchange of ideas, which is very important for the health of intellectual discourse, authors may not know where an idea for a study originated. If authors do know, however, they should   acknowledge the source; this includes personal communications (p. 11). For guidance on proper documentation, consult the Academic Success Center or a recommended guide to documentation and research such as the Manual of the APA or the MLA Handbook for Writers of Research Papers. If you still have doubts concerning proper documentation, seek advice from your instructor prior to submitting a final draft.

TAMIU has penalties for plagiarism and cheating.

- **Penalties for Plagiarism**: Should a faculty member discover that a student has committed plagiarism, the student should receive a grade of 'F' in that course and the matter will be referred to the Honor Council for possible disciplinary action. The faculty member, however, may elect to give freshmen and sophomore students a "zero" for the assignment and to allow them to revise the assignment up to a grade of "F" (50%) if they believe that the student plagiarized out of ignorance or carelessness and not out of an attempt to deceive in order to earn an unmerited grade; the instructor must still report the offense to the Honor Council. This option should not be available to juniors, seniors, or graduate students, who cannot reasonably claim ignorance of documentation rules as an excuse. For repeat offenders in undergraduate courses or for an offender in any graduate course, the penalty for plagiarism is likely to include suspension or expulsion from the university.
  - *Caution*: Be very careful what you upload to Turnitin or send to your professor for evaluation. Whatever you upload for evaluation will be considered your final, approved draft. If it is plagiarized, you will be held responsible. The excuse that "it was only a draft" will not be accepted.
  - *Caution*: Also, do not share your electronic files with others. If you do, you are responsible for the possible consequences. If another student takes your file of a paper and changes the name to his or her name and submits it and you also submit the paper, we will hold both of you responsible for plagiarism. It is impossible for us to know with certainty who wrote the paper and who stole it. And, of course, we cannot know if there was collusion between you and the other student in the matter.
- **Penalties for Cheating**: Should a faculty member discover a student cheating on an exam or quiz or other class project, the student should receive a "zero" for the assignment and not be allowed to make the assignment up. The incident should be reported to the chair of the department and to the Honor Council. If the cheating is extensive, however, or if the assignment constitutes a major grade for the course (e.g., a final exam), or if the student has cheated in the past, the student should receive an "F" in the course, and the matter should be referred to the Honor Council. Additional

penalties, including suspension or expulsion from the university may be imposed. Under no circumstances should a student who deserves an "F" in the course be allowed to withdraw from the course with a "W."

- *Caution*: Chat groups that start off as "study groups" can easily devolve into "cheating groups." Be very careful not to join or remain any chat group if it begins to discuss specific information about exams or assignments that are meant to require individual work. If you are a member of such a group and it begins to cheat, you will be held responsible along with all the other members of the group. The TAMIU Honor Code requires that you report any such instances of cheating.
- **Student Right of Appeal**: Faculty will notify students immediately via the student's TAMIU e- mail account that they have submitted plagiarized work. Students have the right to appeal a faculty member's charge of academic dishonesty by notifying the TAMIU Honor Council of their intent to appeal as long as the notification of appeal comes within 10 business days of the faculty member's e-mail message to the student and/or the Office of Student Conduct and Community Engagement. The Student Handbook provides more details.

Use of Work in Two or More Courses

You may not submit work completed in one course for a grade in a second course unless you receive explicit permission to do so by the instructor of the second course. In general, you should get credit for a work product only once.

AI Policies

Your instructor will provide you with their personal policy on the use of AI in the classroom setting and associated coursework.

TAMIU E-Mail and SafeZone

Personal Announcements sent to students through TAMIU E-mail (tamiu.edu or dusty email) are the official means of communicating course and university business with students and faculty —not the U.S. Mail and no other e-mail addresses. Students and faculty must check their TAMIU e-mail accounts regularly, if not daily. Not having seen an important TAMIU e-mail or message from a faculty member, chair, or dean is not accepted as an excuse for failure to take important action.

Students, faculty, and staff are encouraged to download the SafeZone app, which is a free mobile app for all University faculty, staff, and students. SafeZone allows you to: report safety concerns (24/7), get connected with mental health professionals, activate location sharing with authorities, and anonymously report incidents. Go to SafeZone (https://www.tamiu.edu/adminis/police/safezone/index.shtml) for more information.

Copyright Restrictions

The Copyright Act of 1976 grants to copyright owners the exclusive right to reproduce their works and distribute copies of their work. Works that receive copyright protection include published works such as a textbook. Copying a textbook without permission from the owner of the copyright may constitute copyright infringement. Civil and criminal penalties may be assessed for copyright infringement. Civil penalties include damages up to $100,000; criminal penalties include a fine up to $250,000 and imprisonment. Copyright laws do not allow students and professors to make photocopies of copyrighted materials, but you may copy a limited portion of a work, such as article from a journal or a chapter from a book for your own personal academic use or, in the case of a professor, for personal, limited classroom use. In general, the extent of your copying should not suggest that the purpose or the effect of your copying is to avoid paying for the materials. And, of course, you may not sell these copies for a profit. Thus, students who copy textbooks to avoid buying them or professors who provide photocopies of textbooks to enable students to save money are violating the law.

Students with Disabilities

Texas A&M International University seeks to provide reasonable accommodations for all qualified persons with disabilities. This University will adhere to all applicable federal, state, and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal education opportunity. It is the student's responsibility to register with the Office of Disability Services for Students located in Student Center 124. This office will contact the faculty member to recommend specific, reasonable accommodations. Faculty are prohibited from making accommodations based solely on communications from students. They may make accommodations only when provided documentation by the Office of Disability Services for Students.

For accommodations or assistance with disabilities, contact the Disability Coordinator, Karla Pedraza, at karla.pedraza@tamiu.edu, call 956.326.2763, or visit Student Center 124.

Student Attendance and Leave of Absence (LOA) Policy

As part of our efforts to assist and encourage all students towards graduation, TAMIU provides
LOA's for students, including pregnant/parenting students, in accordance with the Attendance Rule (Section 3.07) and the Student LOA Rule (Section 3.08), which includes the "Leave of Absence Request" form. Both rules can be found in the TAMIU Student Handbook (URL: Student Handbook (https://www.tamiu.edu/handbook/index.shtml)).

Pregnant and Parenting Students

Under Title IX of the Education Amendments of 1972, harassment based on sex, including harassment because of pregnancy or related conditions, is prohibited. A pregnant/parenting student must be granted an absence for as long as the student's physician deems the absence medically necessary.

TEXAS A&M **INTERNATIONAL** UNIVERSITY

CRIJ 5322 780: Homeland Security | *8*

It is a violation of Title IX to ask for documentation relative to the pregnant/parenting student's status beyond what would be required for other medical conditions. Students who experience or observe alleged or suspected discrimination due to their pregnant/parenting status, should report to the TAMIU Title IX Coordinator (Lorissa M. Cortez, 5201 University Boulevard, KLM 159B, Laredo, TX 78041, TitleIX@tamiu.edu, 956.326.2857) and/or the Office of Civil Rights (Dallas Office, U.S. Department of Education, 1999 Bryan Street, Suite 1620, Dallas, TX 75201-6810, 214.661.9600). You can also report it on TAMIU's anonymous electronic reporting site, *Report It*, at https://www.tamiu.edu/reportit (https://www.tamiu.edu/reportit/index.shtml).

TAMIU advises a pregnant/parenting student to notify their professor once the student is aware that accommodations for such will be necessary. It is recommended that the student and professor develop a reasonable plan for the student's completion of missed coursework or assignments. The Office of Compliance (Lorissa M. Cortez, lorissam.cortez@tamiu.edu) can assist the student and professor in working out the reasonable accommodation. For other questions or concerns regarding Title IX compliance related to pregnant/parenting students, contact the Title IX Coordinator. In the event that a student needs a leave of absence for a substantial period of time, TAMIU urges the student to consider a Leave of Absence (LOA) as outlined in the TAMIU *Student Handbook*.#As part of our efforts to assist and encourage all students towards graduation, TAMIU provides LOAs for students, including pregnant/parenting, in accordance with the Attendance Rule and the Student LOA Rule.#Both rules can be found in the TAMIU *Student Handbook*.

For parenting-related rights, accommodations, and resources, contact the Parenting Liaison, Mayra Hernandez, at mghernandez@tamiu.edu, call 956.326.2265, or visit Student Center 226.

For pregnancy-related rights, accommodations, and resources, contact the TIX Coordinator, Lorissa Cortez, at lorissaM.cortez@tamiu.edu, call 956.326.2857, or visit Killam Library 159.

Anti-Discrimination/Title IX

TAMIU does not discriminate or permit harassment against any individual on the basis of race, color, sex, religion, national origin, age, disability, genetic information, veteran status, educational programs, or employment. If you would like to file a complaint relative to Title IX or any civil rights violation, please contact the TAMIU Director of Equal Opportunity and Diversity/Title IX Coordinator, Lorissa M. Cortez, 5201 University Boulevard, Killam Library 159B, Laredo, TX 78041, TitleIX@tamiu.edu, 956.326.2857, via the anonymous electronic reporting website, ReportIt (https://www.tamiu.edu/reportit) and/or the Office of Civil Rights (Dallas Office), U.S. Department of Education, 1999 Bryan Street, Suite 1620, Dallas, TX 75201-6810, 214.661.9600.

Incompletes

Students who are unable to complete a course should withdraw from the course before the final date for withdrawal and receive a "W." To qualify for an "incomplete" and thus have the opportunity to complete the course at a later date, a student must meet the following criteria:

1. The student must have completed 90% of the course work assigned before the final date for withdrawing from a course with a "W", and the student must be passing the course;
2. The student cannot complete the course because an accident, an illness, or a traumatic personal or family event occurred after the final date for withdrawal from a course;
3. The student must sign an "Incomplete Grade Contract" and secure signatures of approval from the professor and the college dean.
4. The student must agree to complete the missing course work before the end of the next long semester; failure to meet this deadline will cause the "I" to automatically be converted to an "F"; extensions to this deadline may be granted by the dean of the college. This is the general policy regarding the circumstances under which an "incomplete" may be granted, but under exceptional circumstances, a student may receive an incomplete who does not meet all of the criteria above if the faculty member, department chair, and dean recommend it.

WIN Contracts

The Department of Biology and Chemistry does not permit WIN contracts. For other departments within the college, WIN Contracts are offered only under exceptional circumstances and are limited to graduating seniors. Only courses offered by full-time TAMIU faculty or TAMIU instructors are eligible to be contracted for the WIN requirement. However, a WIN contract for a course taught by an adjunct may be approved, with special permission from the department chair and dean. Students must seek approval before beginning any work for the WIN Contract. No student will contract more than one course per semester. Summer WIN Contracts must continue through both summer sessions.

Student Responsibility for Dropping a Course

It is the responsibility of the student to drop the course before the final date for withdrawal from a course. Faculty members, in fact, may not drop a student from a course without getting the approval of their department chair and dean.

Independent Study Course

Independent Study (IS) courses are offered only under exceptional circumstances. Required courses intended to build academic skills may not be taken as IS (e.g., clinical supervision and internships). No student will take more than one IS course per semester. Moreover, IS courses are limited to seniors and graduate students. Summer IS course must continue through both summer sessions.

Grade Changes & Appeals

Faculty are authorized to change final grades only when they have committed a computational error or an error in recording a grade, and they must receive the approval of their department chairs and the dean to change the grade. As part of that approval, they must attach a detailed explanation of the reason for the mistake. Only in rare cases would another reason be entertained as legitimate for a grade change. A student who is unhappy with his or her grade on an assignment must discuss the situation with the faculty member teaching the course. If students believe that they have been graded unfairly, they have the right to appeal the grade using a grade appeal process in the Student Handbook and in the Faculty Handbook.

Final Examination

All courses in all colleges must include a comprehensive exam or performance and be given on the date and time specified by the Academic Calendar and the Final Exam schedule published by the Registrar's Office. In the College of Arts & Sciences all final exams must contain a written component. The written component should comprise at least 20% of the final exam grade. Exceptions to this policy must receive the approval of the department chair and the dean at the beginning of the semester.

Mental Health and Well-Being

The university aims to provide students with essential knowledge and tools to understand and support mental health. As part of our commitment to your well-being, we offer access to Telus Health, a service available 24/7/365 via chat, phone, or webinar. Scan the QR code to download the app and explore the resources available to you for guidance and support whenever you need it. The Telus app is available to download directly from TELUS (tamiu.edu) (https://www.tamiu.edu/counseling/telus/) or from the Apple App Store and Google Play.

Distance Education Courses

*[The ITALICIZED INFORMATION BELOW is where you are to ADD your course information. **Please don't forget to remove these instructions and all ITALICIZED content.**]*

Regular and Substantive Interaction (Note to Instructors):
The U.S. Department of Education (ED) has issued Regular and Substantive Interaction: Background, Concerns, and Guiding Principles which went into effect on July 1, 2021. Under the new regulations, the U.S. Department of Education requires that all online courses and programs for which students may use Title IV funds (federal financial aid) include regular and substantive interaction between students and their instructors. This ruling applies to both synchronous and asynchronous courses, with the primary focus being asynchronous courses. The Department of Education has the authority to audit courses and programs at institutions, like Texas A&M International University, with online offerings.

Be sure that your course provides for regular and substantive interaction between faculty and students, students and students, and students and content. (C-RAC, OSCQR, QM, SACSCOC, SC)

1. *Regular and substantive instructor-to-student expectations and predictable/scheduled interactions and feedback are present, appropriate for the course length and structure, and are easy to find. (OSCQR, SACSCOC, SC)*
2. *Expectations for all course interactions (instructor to student, student to student, student to instructor) are clearly stated and modeled in all course interactions/communication channels. (OSCQR, SACSCOC, SC)*

Be sure to add clear statements on your syllabi about these instructor-to-student expectations.

Visit for additional guidance on including Regular and Substantive Interaction: https://www.tamiu.edu/distance/faculty/regular-and-substantive-interaction.shtml

Online Courses and On-Campus Meetings

Texas Administrative Code (TAC), Title 19, Part 1, Chapter 2, Subchapter J, Section 2.202 (https://texreg.sos.state.tx.us/public/readtac$ext.TacPage?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=1&ch=2&rl=202), defines distance education as the formal educational process that occurs when students and instructors are not in the same physical setting for the majority (more than 50%) of instruction. Distance education includes hybrid and 100% online courses and programs as defined by the Texas Higher Education Coordinating Board (THECB):

- **Hybrid Course** - A distance education course in which more than 50 percent but less than 100 percent of instructional activity takes place when the student(s) and instructor(s) are in separate physical locations.
- **100-Percent Online Course** - A distance education course in which 100 percent of instructional activity takes place when the student(s) and instructor(s) are in separate physical locations. **Requirements for on-campus or in-person orientation, testing, academic support services, internships/fieldwork, or other non-instructional activities do not exclude a course from this category.**

In this online course, be sure to confirm what in-person meetings may be required of you (if applicable).

Course Structure

[Description of how students should approach the course regularly. A description of course menu items and their contents may be found here. The description may also describe how students should approach the materials per lesson/module/week. It should include what type of materials students may encounter, the types of activities and assessments they may see, and other expectations from the students in each module. This section should help the student understand how to navigate the course.]

Student-Instructor Communication Policy and Response Time

Announcements/Course Messages/Emails

[The instructor must provide information on the type of communication that will be provided to students on a regular basis, including the frequency of this communication (such as "Announcements will be posted regularly on Mondays."). Also, information on the turnaround time for communication from course messages or emails sent to the instructor.]

Assignments and Assessments

*[The instructor must list the turnaround time **for providing feedback to students on their submissions of an assignment or assessment.** Expectations on how students will receive feedback should be listed for each type of assignment.]*

Course Communication Guidelines (Netiquette)

There are course expectations concerning etiquette or how we should treat each other online. We must consider these values as we communicate with one another. Visit **Instructional Technology and Distance Education Services' web page on Netiquette (http://www.tamiu.edu/distance/students/netiquette.shtml)** for further instruction.

Accommodations/Accessibility Policy

Texas A&M International University seeks to provide reasonable accommodation for all qualified persons with disabilities. This University will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to register with the Director of Student Counseling and to contact the faculty member in a timely fashion to arrange for suitable accommodation. For more information, contact the online at **Office of Disability Services for Students (DSS)**, via phone at 956.326.3086 or by visiting the staff at the Student Center, room 118. A link to the Disabilities Services for Students site has also been included under the "Resources" tab inside the course.

Student Support Resources

The University wishes to have all students succeed in their courses. To provide support to our students, an array of services in the areas of technology support, academic support, student support, and accessibility support may be found at the University. For more information, visit the Instructional Technology and Distance Education Services page on **University Resources and Support Services**.

Computer/Technology Requirements

[Technology requirements must be listed for the course. Information on how to obtain software for purchase or download should be provided. See the following example. Customize technologies to include those that pertain to your course:]

When participating in distance education courses, it is vital to consider the technology involved in order to have a successful course. Online students will need regular access to a personal computer that runs on a broadband Internet connection.

It is recommended that you meet the technical requirements listed on the Instructional Technology and Distance Education Services' webpage (https://www.tamiu.edu/distance/students/technology-requirements.shtml) when using the learning management system (LMS) of the University.

Additional Hardware. For this class, you will need the following additional hardware: **[*list any additional required hardware here. Additionally, and if applicable, you may use the following statement*:]** Recently purchased laptops may have these built-in web cameras. If you do not have this equipment, it is recommended to purchase a stand-alone webcam, microphone, or a webcam with a built-in microphone from your local electronic store or any online store.

NOTE: Instructional Technology and Distance Education Services may check out available webcams to students on a first-come, first-served basis. To check out a webcam, please stop by Killam Library, Room 259, and request an available webcam.

Additional Software. You will need the following additional software: [*list any additional software required here. Additionally, and if applicable, you may use the following statement:]* TAMIU Students may access online versions of this software through their Dusty Office 365 account at **https://dusty.tamiu.edu/**. This site also provides students access to download the Microsoft suite for educational use. **See instructions for downloading the Microsoft Office suite**.

Note: Students, if you do not own the required hardware or software or do not have access to the Internet, it will be highly challenging for you to make any progress in this class. However, my goal is to assist you in finding solutions and guide you appropriately most of the required materials can either

be found free of charge at TAMIU's library, classrooms, and available computer labs. **Visit Media Services' web page on the availability of on-campus computer labs.** In addition, you may also purchase any of these items at any electronic store.

Learning Management System (Blackboard)

Students are provided with an orientation (*eLearning (Blackboard) Student Orientation*) and access to guides on how to use the Blackboard LMS. Guides may be available at **Instructional Technology and Distance Education Services' Student eLearning Tutorial Videos page** or by contacting the eLearning team at **elearning@tamiu.edu**.

Minimum Technical Skills Expected

[The description of the minimal technology skills is linked to OIT's statement of minimal skills. Faculty are required to update statements for additional technological skills from students.]
When participating in distance education courses, it is vital to consider the technology involved in order to have a successful course. Students in distance education should have knowledge of basic computer and Internet skills, as mentioned on the **Instructional Technology and Distance Education Services' webpage**.

Technical Support Services

Because of the nature of distance education courses, the Office of Information Technology (OIT) computing and information services are vital to the success of online students. This webpage covers contact information for Distance Education Services (Blackboard Support), the OIT Help Desk, and E-mail support: **Technical Support Services**.

Web Conferences/Synchronous sessions

[Instructors that host synchronous virtual meeting sessions should list details on how students will meet with the instructor in this section and whether these meetings are optional or required. Include the frequency of these meetings and a general explanation of the purpose for these sessions.]

Rubrics (may be included here and in the Syllabus and Overview in the course)

[The inclusion of rubrics in the syllabus is usually up to the instructor. If rubrics are not included in the syllabus, this area should convey to students that rubrics are included in the course and will provide an understanding of how they will be assessed on the course's assignments.]

Late Work Policy

Instructors should include the policy stating what may or may not be acceptable for late assignments.

Course Evaluation

At the end of this course, students are encouraged to complete a course evaluation that will be distributed to them via email and through a course link.

Turnitin Policy Or Other Types of Assignments in Other Systems

[Instructor's policy on assignments held within the Turnitin system.]

Proctoring

[Respondus LockDown Browser/Monitor OR Examity. Contact elearning@tamiu.edu for the syllabus statement and other information.]

Accessibility and Privacy Statements on Course Technologies

[Information on the accessibility and privacy policies of all course technologies must be provided to the students. At TAMIU, the eLearning team has compiled a list of accessibility and privacy statement links on their website. Link to these pages and contact eLearning if any new technologies should be listed on their pages. See the following example. Customize technologies to include those that pertain to your course:]

At Texas A&M International University, we believe that all students should have equal technology opportunities in the classroom. These technologies/sites may also require user data, such as the creation of a username and password. You may find the accessibility and privacy policies of the technologies used in this class on the following pages: **Accessibility Statements and Privacy Statements**.

In this class, we will utilize: [insert the technologies here].
