

BIOL 1306 - Principles of Biology I

Fall 2026 Syllabus, Section 101, CRN 18344

Instructor Information

Giasuddin Ahmed, PhD

Assistant Professor

Email: giasuddin.ahmed@tamiu.edu

Office: LBV 385D

Office Hours:

Monday, Wednesday and Thursday: 3:00-5:00 PM or by an appointment. Please reach out to me directly via email.

Office Phone: 9563262586

Times and Location

MWF 9:40am-10:35am in Western Hemispheric Trade Ctr 116

Course Description

A study of the basic principles of Biology. Topics will include biochemistry, cell structure and function, photosynthesis and respiration, DNA structure and function, mitosis, meiosis, and Mendelian genetics. Required for all biology majors. Concurrent enrollment in CHEM 1311/1111 is strongly recommended; concurrent enrollment in BIOL 1106 is required. Fulfills the laboratory Science core requirement. May be taken by non-science majors with permission of instructor.

Biology&Chemistry Department, College of Arts & Sciences

Additional Course Information

***Syllabus can be subject to modifications. Quizzes will be announced in class and posted in Blackboard.**

Attendance and Reading Assignments:

Regular attendance at all lectures is required. The material covered in class is fair game for exam questions, so it is crucial that you are present. **Attendance will be taken on TopHat and in the beginning of class. Please accept the invitation to join the TopHat and please try to be in the class on time.**

I expect you to read the assigned textbook chapters, ideally soon after the corresponding lectures. Based on my experience, students who engage with the material from both lectures and the textbook tend to have the most success in understanding complex cellular and molecular biology concepts. Conversely, students who frequently miss lectures or skip the readings often struggle.

Lecture Slides / Email Access:

Be sure to check your **tamiu.edu** email regularly (i.e., at least once per day during the semester, except holidays). I'll respond to any of your e-mail questions within 48 hrs on weekdays. Immediately after each lecture, I will email you the Power point slides we covered that day and will be uploaded in Blackboard. In addition, I will email announcements about such matters as review sessions, changes of due dates, etc. If somehow you don't receive my slides for a particular lecture, or accidentally delete them, you are welcome to bring a flash drive to my office during office hours and I will be happy to provide slides from any previous class periods. Or, just send me an email requesting the missing slides.

Important note: Because I am continually revising my lecture slides and creating new slides, often until just minutes before class, I cannot provide slides to students in advance of a lecture. This is supported by pedagogical research showing improvement in student learning and retention of information when lectures do not have slide handouts.

Cell Phones and Other Disruptions

It is disruptive when phones or other devices ring or emit musical sounds during class, so be sure to turn the sound off beforehand. I realize that unforeseen circumstances will occasionally prevent a student from arriving at class on time. However ***please do not make a habit of arriving late for my class. It becomes a distraction for other students, and also disrespects their efforts to be punctual.*** Food, drink and any other tobacco products are not allowed in the in person classroom.

Student Learning Outcomes

Upon successful completion of this course,

- Students will be able to describe the structure and function of biological molecules.
- Students will be able to describe cellular processes and function.
- Students will be able to explain the principles of evolutionary theory.
- Students will be able to demonstrate technical communication skills and be able to utilize the scientific method.

Important Dates

Visit the Academic Calendar (tamiu.edu) (<https://www.tamiu.edu/academiccalendar/>) page to view the term's important dates.

Textbooks

Group	Title	Author	ISBN
Required	Principles of Biology 2026 Release with Connect Access	Robert J. Brooker, Eric P. Widmaier, Linda Graham and Peter Stiling	9781264525256

Grading Criteria

GRADE	PERCENTAGE
A	90-100
B	80-89
C	70-79
D	60-69
F	Below 60

Grading and Assessment Policy

Quizzes and Exam: There will be one quiz for each chapter covered in class. Quizzes are due on the class day following completion of a chapter. As a result, **you will typically have more than one quiz per week.**

Each exam will include 3 to 4 essay questions, collectively worth 10% to 20% of the exam grade. **Prior to the exam, students must check in all electronic devices, including phones, smartwatches, earbuds, tablets, Google Lens devices, and similar items, at the front of the classroom.** Students with approved accommodations may take the exam at the Testing Center, the DSS Office, or Dr. Ahmed's office. **Students requiring accommodations or needing to make up an exam must schedule their exam time with Dr. Ahmed in advance.**

Unless otherwise indicated, all exams and quizzes are closed-book and closed-notes. Students must use Respondus LockDown Browser for all quizzes and exams.

TopHat will be used for take attendance tracking. Please subscribe to it.

LockDown Browser Requirement

This course requires the use of LockDown Browser for online exams. Watch this short video (<http://www.respondus.com/products/lockdown-browser/student-movie.shtml>) to get a basic understanding of LockDown Browser.

Download Instructions

Click the **Student Support** top-middle tab located in Blackboard. Scroll down to the *Instructional Technologies* section, and click on the *Respondus LockDown Browser* icon. Download is **free**.

Once Installed

- Open LockDown Browser
- Log into Blackboard Learn
- Navigate to the test and begin

Note: You won't be able to access tests with LockDown Browser if you use a **Google Chromebook**. Use an alternate device instead, if you do not have an alternate device, e-mail me regarding this issue the soonest possible.

Guidelines

When taking an online test, follow these guidelines:

- Before starting the test, know how much time is available for it, and also that you've allotted sufficient time to complete it
- **Turn off all mobile devices, phones, smart watch etc. and don't have them within reach**
- Clear your area of all external materials - books, papers, other computers, or devices
- Remain at your desk or workstation for the duration of the test
- LockDown Browser will prevent you from accessing other websites or applications; you will be unable to exit the test until all questions are completed and submitted

Getting Help

Several resources are available if you encounter problems with LockDown Browser:

The Windows and Mac versions of LockDown Browser have a "Help Center" button located on the toolbar. Use the "System & Network Check" to troubleshoot issues.

If you have problems downloading, installing, or taking a test with Respondus LockDown Browser, email the TAMIU eLearning Team at elearning@tamiu.edu.

ASSIGNMENT	VALUE
Quizzes	20%
Assignment	15%
Attendance	5%
Exam #1	15%
Exam #2	15%
Exam #3	15%
Final Exam	15%

Schedule of Topics and Assignments

Day	Date	Agenda/Topic	Reading(s)	Due
Mon	8/24	Course introduction, syllabus, and chapter 1: origin of life		
Wed	8/26	Chapter 1: Origins of life, part 2 and Chapter 2: Chemistry of life part 1		
Fri	8/28	Chapter 2: Chemistry of life part 2		Quiz 1 on chapter 1
Mon	8/31	Chapter 3: Importance of water		Quiz 2 chapter 2
Wed	9/2	Chapter 4: Carbon and molecular diversity	Text Book and lecture material	Quiz 3 chapter 3
Fri	9/4	Review for Midterm 1		

Mon	9/7	No class		
Wed	9/9	Midterm 1 on chapter 1, 2, 3, and 4	Text Book and lecture material	
Fri	9/11	Chapter 5: The Structure and Function of Large Biological Molecules part 1		
Mon	9/14	Chapter 5: The Structure and Function of Large Biological Molecules part 2		
Wed	9/16	Chapter 5: The Structure and Function of Large Biological Molecules part 3	Text Book and lecture material	Quiz 5 on Chapter 5
Fri	9/18	Chapter 6: Cellular structure part 1		
Mon	9/21	Chapter 6: Cellular structure part 2		
Wed	9/23	Chapter 7: Membrane structure and function part 1	Text Book and lecture material	Quiz 6 on chapter 6
Fri	9/25	Chapter 7: Membrane structure and function part 2		
Mon	9/28	Chapter 7: Membrane structure and function part 3		
Wed	9/30	Chapter 8: Cellular Metabolism part 1	Text Book and lecture material	Quiz 7 on Chapter 7
Fri	10/2	Midterm 2 Review		
Mon	10/5	Midterm 2 on chapter 5, 6, 7, and 8 part 1		
Wed	10/7	Chapter 8: Cellular Metabolism part 2	Text Book and lecture material	
Fri	10/9	Chapter 8: Cellular Metabolism part 3		
Mon	10/12	Chapter 9: Respiration part 1		Quiz 8 on Chapter 8
Wed	10/14	Chapter 9: Respiration part 2	Text Book and lecture material	
Fri	10/16	Chapter 9: Respiration part 3		
Mon	10/19	Chapter 10: Photosynthesis part 1		Quiz 9 on Chapter 9
Wed	10/21	Chapter 10: Photosynthesis part 2	Text Book and lecture material	
Fri	10/23	Chapter 12: Cell cycle control and Mitosis		Quiz 9 on Chapter 10
Mon	10/26	Chapter 12: Cell cycle control and Mitosis part 2		
Wed	10/28	Chapter 11: Cell communication	Text Book and lecture material	Quiz 10 on Chapter 12
Fri	10/30	Review for Midterm 3		
Mon	11/2	Midterm 3 on chapters chapter 8 part 2 & 3, chapter 9, 10, 12		
Wed	11/4	Chapter 13: Meiosis	Text Book and lecture material	Quiz 11 on Chapter 11
Fri	11/6	Chapter 14: Mendelian Genetics		Quiz 12 on Chapter 13
Mon	11/9	Chapter 16: DNA replication		
Wed	11/11	Chapter 17: RNA and protein synthesis	Text Book and lecture material	Quiz 13 on Chapter 14
Fri	11/13	Chapter 18: Regulation of gene expression (Ch. 18) Regulation of gene expression		
Wed	11/18	Review for final exam	Text Book and lecture material	
Fri	11/20	Review for final Exam		
Mon	11/23	Review for final exam		
Wed	11/25	no class	Text Book and lecture material	Quiz 12 on chapter 17 on 11/21
Fri	11/27	No class		
Mon	11/30	Review final exam		
Wed	12/2	Comprehensive Final Exam	Text Book and lecture material	
Fri	12/4	No class		
Mon	12/7	No class		
Wed	12/9	No class	Text Book and lecture material	Final Exam on 12/03

Core Curriculum Learning Outcomes

Core-Curriculum Learning Outcomes:

1. **Critical Thinking Skills (CT)** - creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information
2. **Communication Skills (COM)** - effective development, interpretation and expression of ideas through written, oral and visual communication
3. **Empirical and Quantitative Skills (EQS)** - manipulation and analysis of numerical data or observable facts resulting in informed conclusions
4. **Social Responsibility (SR)** - intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities
5. **Personal Responsibility (PR)** - ability to connect choices, actions and consequences to ethical decision-making

University/College Policies

Please see the University Policies below.

COVID-19 Related Policies

If you have tested positive for COVID-19, please refer to the Student Handbook, Appendix A (Attendance Rule) for instructions.

Required Class Attendance

Students are expected to attend every class in person (or virtually, if the class is online) and to complete all assignments. If you cannot attend class, it is your responsibility to communicate absences with your professors. The faculty member will decide if your excuse is valid and thus may provide lecture materials of the class. According to University policy, acceptable reasons for an absence, which cannot affect a student's grade, include:

- Participation in an authorized University activity.
- Death or major illness in a student's immediate family.
- Illness of a dependent family member.
- Participation in legal proceedings or administrative procedures that require a student's presence.
- Religious holy day.
- Illness that is too severe or contagious for the student to attend class.
- Required participation in military duties.
- Mandatory admission interviews for professional or graduate school which cannot be rescheduled.

Students are responsible for providing satisfactory evidence to faculty members within seven calendar days of their absence and return to class. They must substantiate the reason for the absence. If the absence is excused, faculty members must either provide students with the opportunity to make up the exam or other work missed, or provide a satisfactory alternative to complete the exam or other work missed within 30 calendar days from the date of absence. Students who miss class due to a University-sponsored activity are responsible for identifying their absences to their instructors with as much advance notice as possible.

Classroom Behavior (applies to online or Face-to-Face Classes)

In the classroom, students are expected to listen attentively, participate respectfully, and adhere to established rules. Behavior that interferes with the class lecture may result in disciplinary action, ensuring a productive and respectful learning environment for everyone. Any disputes over academic matters should be addressed calmly and constructively, ideally during designated times such as office hours or after class. If a student does not agree with a decision, they can request a meeting with the instructor to discuss their concerns in more detail. Should further resolution be needed, the student may escalate the matter to the department head or use formal grievance procedures as outlined in the sections below. (please refer to Student Handbook Article 4 (<https://www.tamui.edu/handbook/article-04.shtml>)).

TAMUI Honor Code: Plagiarism and Cheating

As a TAMUI student, you are bound by the TAMUI Honor Code to conduct yourself ethically in all your activities as a TAMUI student and to report violations of the Honor Code. Please read carefully the Student Handbook Article 7 and Article 10 available at Student Handbook (<https://www.tamui.edu/handbook/index.shtml>).

We are committed to strict enforcement of the Honor Code. Violations of the Honor Code tend to involve claiming work that is not one's own, most commonly plagiarism in written assignments and any form of cheating on exams and other types of assignments.

Plagiarism is the presentation of someone else's work as your own. It occurs when you:

1. Borrow someone else's facts, ideas, or opinions and put them entirely in your own words. You must acknowledge that these thoughts are not your own by immediately citing the source in your paper. Failure to do this is plagiarism.

2. Borrow someone else's words (short phrases, clauses, or sentences), you must enclose the copied words in quotation marks as well as citing the source. Failure to do this is plagiarism.
3. Present someone else's paper or exam (stolen, borrowed, or bought) as your own. You have committed a clearly intentional form of intellectual theft and have put your academic future in jeopardy. This is the worst form of plagiarism.

Here is another explanation from the 2020, seventh edition of the Manual of The American Psychological Association (APA):

"Plagiarism is the act of presenting the words, idea, or images of another as your own; it denies authors or creators of content the credit they are due. Whether deliberate or unintentional, plagiarism violates ethical standards in scholarship" (p. 254). This same principle applies to the illicit use of AI.

Plagiarism: Researchers do not claim the words and ideas of another as their own; they give credit where credit is due. Quotations marks should be used to indicate the exact words of another. Each time you paraphrase another author (i.e., summarize a passage or rearrange the order of a sentence and change some of the words), you need to credit the source in the text. The key element of this principle is that authors do not present the work of another as if it were their own words. This can extend to ideas as well as written words. If authors model a study after one done by someone else, the originating author should be given credit. If the rationale for a study was suggested in the discussion section of someone else's article, the person should be given credit. Given the free exchange of ideas, which is very important for the health of intellectual discourse, authors may not know where an idea for a study originated. If authors do know, however, they should acknowledge the source; this includes personal communications (p. 11). For guidance on proper documentation, consult the Academic Success Center or a recommended guide to documentation and research such as the Manual of the APA or the MLA Handbook for Writers of Research Papers. If you still have doubts concerning proper documentation, seek advice from your instructor prior to submitting a final draft.

TAMIU has penalties for plagiarism and cheating.

- **Penalties for Plagiarism:** Should a faculty member discover that a student has committed plagiarism, the student should receive a grade of 'F' in that course and the matter will be referred to the Honor Council for possible disciplinary action. The faculty member, however, may elect to give freshmen and sophomore students a "zero" for the assignment and to allow them to revise the assignment up to a grade of "F" (50%) if they believe that the student plagiarized out of ignorance or carelessness and not out of an attempt to deceive in order to earn an unmerited grade; the instructor must still report the offense to the Honor Council. This option should not be available to juniors, seniors, or graduate students, who cannot reasonably claim ignorance of documentation rules as an excuse. For repeat offenders in undergraduate courses or for an offender in any graduate course, the penalty for plagiarism is likely to include suspension or expulsion from the university.
 - **Caution:** Be very careful what you upload to Turnitin or send to your professor for evaluation. Whatever you upload for evaluation will be considered your final, approved draft. If it is plagiarized, you will be held responsible. The excuse that "it was only a draft" will not be accepted.
 - **Caution:** Also, do not share your electronic files with others. If you do, you are responsible for the possible consequences. If another student takes your file of a paper and changes the name to his or her name and submits it and you also submit the paper, we will hold both of you responsible for plagiarism. It is impossible for us to know with certainty who wrote the paper and who stole it. And, of course, we cannot know if there was collusion between you and the other student in the matter.
- **Penalties for Cheating:** Should a faculty member discover a student cheating on an exam or quiz or other class project, the student should receive a "zero" for the assignment and not be allowed to make the assignment up. The incident should be reported to the chair of the department and to the Honor Council. If the cheating is extensive, however, or if the assignment constitutes a major grade for the course (e.g., a final exam), or if the student has cheated in the past, the student should receive an "F" in the course, and the matter should be referred to the Honor Council. Additional penalties, including suspension or expulsion from the university may be imposed. Under no circumstances should a student who deserves an "F" in the course be allowed to withdraw from the course with a "W."
 - **Caution:** Chat groups that start off as "study groups" can easily devolve into "cheating groups." Be very careful not to join or remain any chat group if it begins to discuss specific information about exams or assignments that are meant to require individual work. If you are a member of such a group and it begins to cheat, you will be held responsible along with all the other members of the group. The TAMIU Honor Code requires that you report any such instances of cheating.
- **Student Right of Appeal:** Faculty will notify students immediately via the student's TAMIU e-mail account that they have submitted plagiarized work. Students have the right to appeal a faculty member's charge of academic dishonesty by notifying the TAMIU Honor Council of their intent to appeal as long as the notification of appeal comes within 10 business days of the faculty member's e-mail message to the student and/or the Office of Student Conduct and Community Engagement. The Student Handbook provides more details.

Use of Work in Two or More Courses

You may not submit work completed in one course for a grade in a second course unless you receive explicit permission to do so by the instructor of the second course. In general, you should get credit for a work product only once.

AI Policies

Your instructor will provide you with their personal policy on the use of AI in the classroom setting and associated coursework.

TAMU E-Mail and SafeZone

Personal Announcements sent to students through TAMU E-mail (tamiu.edu or dusty email) are the official means of communicating course and university business with students and faculty –not the U.S. Mail and no other e-mail addresses. Students and faculty must check their TAMU e-mail accounts regularly, if not daily. Not having seen an important TAMU e-mail or message from a faculty member, chair, or dean is not accepted as an excuse for failure to take important action.

Students, faculty, and staff are encouraged to download the SafeZone app, which is a free mobile app for all University faculty, staff, and students. SafeZone allows you to: report safety concerns (24/7), get connected with mental health professionals, activate location sharing with authorities, and anonymously report incidents. Go to SafeZone (<https://www.tamiu.edu/adminis/police/safezone/index.shtml>) for more information.

Copyright Restrictions

The Copyright Act of 1976 grants to copyright owners the exclusive right to reproduce their works and distribute copies of their work. Works that receive copyright protection include published works such as a textbook. Copying a textbook without permission from the owner of the copyright may constitute copyright infringement. Civil and criminal penalties may be assessed for copyright infringement. Civil penalties include damages up to \$100,000; criminal penalties include a fine up to \$250,000 and imprisonment. Copyright laws do not allow students and professors to make photocopies of copyrighted materials, but you may copy a limited portion of a work, such as article from a journal or a chapter from a book for your own personal academic use or, in the case of a professor, for personal, limited classroom use. In general, the extent of your copying should not suggest that the purpose or the effect of your copying is to avoid paying for the materials. And, of course, you may not sell these copies for a profit. Thus, students who copy textbooks to avoid buying them or professors who provide photocopies of textbooks to enable students to save money are violating the law.

Students with Disabilities

Texas A&M International University seeks to provide reasonable accommodations for all qualified persons with disabilities. This University will adhere to all applicable federal, state, and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal education opportunity. It is the student's responsibility to register with the Office of Disability Services for Students located in Student Center 124. This office will contact the faculty member to recommend specific, reasonable accommodations. Faculty are prohibited from making accommodations based solely on communications from students. They may make accommodations only when provided documentation by the Office of Disability Services for Students.

For accommodations or assistance with disabilities, contact the Disability Coordinator, Karla Pedraza, at karla.pedraza@tamiu.edu, call 956.326.2763, or visit Student Center 124.

Student Attendance and Leave of Absence (LOA) Policy

As part of our efforts to assist and encourage all students towards graduation, TAMU provides LOA's for students, including pregnant/parenting students, in accordance with the Attendance Rule (Section 3.07) and the Student LOA Rule (Section 3.08), which includes the "Leave of Absence Request" form. Both rules can be found in the TAMU Student Handbook (URL: Student Handbook (<https://www.tamiu.edu/handbook/index.shtml>)).

Pregnant and Parenting Students

Under Title IX of the Education Amendments of 1972, harassment based on sex, including harassment because of pregnancy or related conditions, is prohibited. A pregnant/parenting student must be granted an absence for as long as the student's physician deems the absence medically necessary. It is a violation of Title IX to ask for documentation relative to the pregnant/parenting student's status beyond what would be required for other medical conditions. Students who experience or observe alleged or suspected discrimination due to their pregnant/parenting status, should report to the TAMU Title IX Coordinator (Lorissa M. Cortez, 5201 University Boulevard, KLM 159B, Laredo, TX 78041, TitleIX@tamiu.edu, 956.326.2857) and/or the Office of Civil Rights (Dallas Office, U.S. Department of Education, 1999 Bryan Street, Suite 1620, Dallas, TX 75201-6810, 214.661.9600). You can also report it on TAMU's anonymous electronic reporting site, *Report It*, at <https://www.tamiu.edu/reportit> (<https://www.tamiu.edu/reportit/index.shtml>).

TAMU advises a pregnant/parenting student to notify their professor once the student is aware that accommodations for such will be necessary. It is recommended that the student and professor develop a reasonable plan for the student's completion of missed coursework or assignments. The Office of Compliance (Lorissa M. Cortez, lorissam.cortez@tamiu.edu) can assist the student and professor in working out the reasonable accommodation. For other questions or concerns regarding Title IX compliance related to pregnant/parenting students, contact the Title IX Coordinator. In the event that a student needs a leave of absence for a substantial period of time, TAMU urges the student to consider a Leave of Absence (LOA) as outlined in the TAMU *Student Handbook*. #As part of our efforts to assist and encourage all students towards graduation, TAMU provides LOAs for students, including pregnant/parenting students, in accordance with the Attendance Rule and the Student LOA Rule. #Both rules can be found in the TAMU *Student Handbook*.

For parenting-related rights, accommodations, and resources, contact the Parenting Liaison, Mayra Hernandez, at mghernandez@tamiu.edu, call 956.326.2265, or visit Student Center 226.

For pregnancy-related rights, accommodations, and resources, contact the TIX Coordinator, Lorissa Cortez, at lorissaM.cortez@tamiu.edu, call 956.326.2857, or visit Killam Library 159.

Anti-Discrimination/Title IX

TAMIU does not discriminate or permit harassment against any individual on the basis of race, color, sex, religion, national origin, age, disability, genetic information, veteran status, educational programs, or employment. If you would like to file a complaint relative to Title IX or any civil rights violation, please contact the TAMIU Director of Equal Opportunity and Diversity/Title IX Coordinator, Lorissa M. Cortez, 5201 University Boulevard, Killam Library 159B, Laredo, TX 78041, TitleIX@tamiu.edu, 956.326.2857, via the anonymous electronic reporting website, ReportIt (<https://www.tamiu.edu/reportit>) and/or the Office of Civil Rights (Dallas Office), U.S. Department of Education, 1999 Bryan Street, Suite 1620, Dallas, TX 75201-6810, 214.661.9600.

Incompletes

Students who are unable to complete a course should withdraw from the course before the final date for withdrawal and receive a "W." To qualify for an "incomplete" and thus have the opportunity to complete the course at a later date, a student must meet the following criteria:

1. The student must have completed 90% of the course work assigned before the final date for withdrawing from a course with a "W", and the student must be passing the course;
2. The student cannot complete the course because an accident, an illness, or a traumatic personal or family event occurred after the final date for withdrawal from a course;
3. The student must sign an "Incomplete Grade Contract" and secure signatures of approval from the professor and the college dean.
4. The student must agree to complete the missing course work before the end of the next long semester; failure to meet this deadline will cause the "I" to automatically be converted to an "F"; extensions to this deadline may be granted by the dean of the college. This is the general policy regarding the circumstances under which an "incomplete" may be granted, but under exceptional circumstances, a student may receive an incomplete who does not meet all of the criteria above if the faculty member, department chair, and dean recommend it.

WIN Contracts

The Department of Biology and Chemistry does not permit WIN contracts. For other departments within the college, WIN Contracts are offered only under exceptional circumstances and are limited to graduating seniors. Only courses offered by full-time TAMIU faculty or TAMIU instructors are eligible to be contracted for the WIN requirement. However, a WIN contract for a course taught by an adjunct may be approved, with special permission from the department chair and dean. Students must seek approval before beginning any work for the WIN Contract. No student will contract more than one course per semester. Summer WIN Contracts must continue through both summer sessions.

Student Responsibility for Dropping a Course

It is the responsibility of the student to drop the course before the final date for withdrawal from a course. Faculty members, in fact, may not drop a student from a course without getting the approval of their department chair and dean.

Independent Study Course

Independent Study (IS) courses are offered only under exceptional circumstances. Required courses intended to build academic skills may not be taken as IS (e.g., clinical supervision and internships). No student will take more than one IS course per semester. Moreover, IS courses are limited to seniors and graduate students. Summer IS course must continue through both summer sessions.

Grade Changes & Appeals

Faculty are authorized to change final grades only when they have committed a computational error or an error in recording a grade, and they must receive the approval of their department chairs and the dean to change the grade. As part of that approval, they must attach a detailed explanation of the reason for the mistake. Only in rare cases would another reason be entertained as legitimate for a grade change. A student who is unhappy with his or her grade on an assignment must discuss the situation with the faculty member teaching the course. If students believe that they have been graded unfairly, they have the right to appeal the grade using a grade appeal process in the Student Handbook and in the Faculty Handbook.

Final Examination

All courses in all colleges must include a comprehensive exam or performance and be given on the date and time specified by the Academic Calendar and the Final Exam schedule published by the Registrar's Office. In the College of Arts & Sciences all final exams must contain a written component. The written component should comprise at least 20% of the final exam grade. Exceptions to this policy must receive the approval of the department chair and the dean at the beginning of the semester.

Mental Health and Well-Being

The university aims to provide students with essential knowledge and tools to understand and support mental health. As part of our commitment to your well-being, we offer access to Telus Health, a service available 24/7/365 via chat, phone, or webinar. Scan the QR code to download the app and

explore the resources available to you for guidance and support whenever you need it. The Telus app is available to download directly from TELUS (tamiu.edu) (<https://www.tamiu.edu/counseling/telus/>) or from the Apple App Store and Google Play.
