MATH 1325 - Business Math II

Spring 2026 Syllabus, Section 202, CRN 28046

Instructor Information

Dagoberto Guerrero, Jr.
Email: dagoberto.guerrero@tamiu.edu
Office: ECHS 105
Office Hours:
11:00 AM - 12:00 PM MTWHF
Office Phone: (956)273-7743

Times and Location

TR 2:50pm-4:10pm in Pellegrino Hall 115

Course Description

This course is the basic study of limits and continuity, differentiation, optimization and graphing, and integration of elementary functions, with emphasis on applications in business, economics, and social sciences. This course is not a substitute for MATH 2413. Prerequisite: MATH 1324. Mathematics & Physics Department, College of Arts & Sciences

Additional Course Information

Attendance:

This course meets Tuesday and Thursday from 4:25-5:45 pm with attendance taken within the first 5 minutes of class, therefore you are expected to be present and on time.

Class Lectures and Homework:

Course lectures notes will be posted on a weekly basis to a "Notes and Homework" folder on the main course webpage. You can access them via your tablet or laptop while in class. or you can print them and bring them with you to class to add any additional notes or examples illustrated and discussed in class.

Homework assignments will be submitted for grading on the following class meeting after they are assigned...no exceptions. Late assignments will not be accepted, except under professor's approval and discretion. Please remember to keep your work numbered, neat, legible, and organized to make it easy to follow and grade. Highlighting or boxing answers is highly recommended. All homework will be submitted physically and not electronically. If for any reason you are absent from class, then you can submit electronic proof of your completed assignment via email and submit the physical assignment upon your return to class.

Remember that everything you submit is a reflection of your commitment to successfully complete this class, so it is expected that you will always submit your best work.

Technology and Other Supplies:

You will need access to a graphing utility (graphing calculator) other than Desmos. The TI-83+ or TI-84+ are highly recommended. For iPhone users, you can download the free version of the "Calculate84" App...it works just like the TI-84+ calculator. A similar app should be available for Android users.

You will need a highlighter and a pocket stapler which you can get at the dollar store.

Please submit your homework on standard sized paper. A letter size legal pad is highly recommended.

Grades:

Grades will NOT be posted to the main course webpage grade book, but you will receive a course average update after every major exam.

Academic Integrity and Expectations:

As a student enrolled in an institution of higher learning you are expected to behave as such...be responsible, be respectful, stay focused, and do not fall behind. Attend class on a daily basis and always be ready for class. Remember that all submitted work should represent your work, your efforts, and your knowledge especially during quizzes or major exams. Academic trust is fragile, so please safeguard and protect it.

Questions are welcomed, but don't jump the gun...I can usually anticipate the questions that my students may have and more than likely they will be answered as the lecture proceeds. For further clarification on any topic, please see me during my office hours.

Office Hours:

My office hours are as follows: Mon-Thurs from 10:00 am to 11:45 am and Tues/Thurs from 3:00 pm to 4:15 pm. Office hours will be held at the Killam Library 3rd Floor Great Room tables.

Please remember that office hours are intended for the purposes or receiving help or clarification on the topics covered in class or for receiving guidance on an assigned homework, but they are not intended to be lecture time for class days missed.

Emails and Messages:

Please make sure to include your full name, class, and section when emailing me. Provide a clear concise explanation of your question or concern for context and better understanding of your situation.

i.e. Hello Professor...this is John Doe from your MATH 1325 Sec 201 class...etc.

You may also message me via the Message portal on your main course webpage.

Quizzes and Tests:

Quizzes are administered periodically and are unannounced...so always be ready. No make ups on missed quizzes regardless of the reason.

Tests will be administered on the scheduled dates (subject to change as class proceeds) without exceptions. Absence from a test does not automatically guarantee you a make-up. If you are absent for a scheduled exam, it is imperative that you communicate your situation with me as soon as possible and based on your explanation and documentation, a make-up may be granted but not guaranteed.

Athletic Activities, Clubs, and School Functions:

Student athletes and any student participating in club(s) or school related functions are bound by all of the above stated rules. Please remember that your participation in these activities do not absolve you from your class obligations, requirements, and expectations. Please provide your professor with proper documentation (official activity flyers or game schedules) for your absence(s) to avoid any negative impact on your course grade.

Student Learning Outcomes

Upon successful completion of this course, the student will be able to:

1. Use limit techniques to find the derivative of simple functions.

2. Use derivative techniques, such as the product, quotient, or chain rule to solve problems in business and economics.

3. Use derivative tests, such as the First Derivative Test and Second Derivative Test to graph functions and apply these techniques to problems in optimization.

4. Interpret the definite integral of a function geometrically as the area of a region and apply the Fundamental Theorem of Calculus to compute antiderivatives and definite integrals of continuous functions.

5. Use methods of integration, such as substitution or integration by parts to compute antiderivatives and definite integrals and apply these techniques to solve problems in the computation of areas between curves or apply them to problems in business and economics.

6. Apply techniques of calculus of several variables, such as analyzing the second partial derivatives of Lagrange Multipliers, to find the maximum and the minimum of a function of several variables.

7. Use double integrals to compute volumes of solids in three-dimensional space.

Important Dates

Visit the Academic Calendar (tamiu.edu) (https://www.tamiu.edu/academiccalendar/) page to view the term's important dates.

Textbooks

Group	Title	Author	ISBN
Required	College Mathematics for Business, Economics, Life Sciences, and Social Sciences, 14th Edition	Barnett, Ziegler, Byleen, Stocker	13:9780137553341

Other Course Materials

To go to the bookstore, **click here (https://www.bkstr.com/texasaminternationalstore/home)**.

Graphing calculator or graphing calculator app required.

Grading Criteria

Course grade will be calculated based on the following criteria:

25% Homework Assignments (MyLabMath).

5% Project/Written Assignment

40% Midterm Exams Exams

30% Comprehensive Final Exam

GRADE	PERCENTAGE
A	90-100
B	80-89
C	70-79
D	60-69
F	Below 60

Schedule of Topics and Assignments

Week of	Agenda/Topic	Reading(s)	Due
1/20	9.1 Introduction to Limits 9.2 Infinite Limits and Limits at Infinity 9.3 Continuity	9.1, 9.2, 9.3	HW Sec 9.1 HW Sec 9.2 HW Sec 9.3
1/27	9.4 The Derivative: The Four Step Method 9.5 Basic Differentiation Properties 9.6 Differentials**	9.4, 9.5, 9.6**	HW Sec 9.4 HW Sec 9.5 HW Sec 9.6**
2/3	9.7 Marginal Analysis in Business and Economics Review: Chapter 9 TEST 1 Chapter 9	9.7, RV CHP 9	HW Sec 9.7

2/10	10.1 The Constant e and Continuous Compound Interest 10.2 Derivatives of Exponential and Logarithmic Functions 10.3 Derivatives of Products and Quotients	10.1, 10.2, 10.3	HW Sec 10.1 HW Sec 10.2 HW Sec 10.3
2/17	10.4 The Chain Rule 10.5 Implicit Differentiation 10.6 Related Rates 10.7 Elasticity of Demand**	10.4, 10.5, 10.6, 10.7**	HW Sec 10.4 HW Sec 10.5 HW Sec 10.6 HW Sec 10.7**
2/24	Review: Chapter 10 11.1 First Derivative Test 11.2 Second Derivative Test 11.3 L'Hopital's Rule	RV CHP 10, 11.1, 11.2, 11.3	HW Sec 11.1 HW Sec 11.2 HW Sec 11.3
3/3	11.4 Curve Sketching Techniques 11.5 Absolute Maxima and Minima 11.6 Optimization** Review: Chapter 11 Spring Break	11.4, 11.5, 11.6**, RV CHP 11	HW Sec 11.4 HW Sec 11.5 HW Sec 11.6
3/10	TEST 2 Chapters 10 and 11 12.1 Antiderivatives and Indefinite Integrals 12.2 Integration by Substitution 12.3 Differential Equations: Growth and Decay**	12.1, 12.2, 12.3**	HW Sec 12.1 HW Sec 12.2 HW sec 12.3**
3/17	12.4 The Definite Integral 12.5 The Fundamental Theorem of Calculus Review: Chapter 12 13.1 Area Between Curves	12.4, 12.5, RV CHP 12, 13.1	HW Sec 12.4 HW Sec 12.5 HW Sec 13.1
3/24	13.2 Applications in Business and Economics** 13.3 Integration by Parts 13.4 Other Integration Methods: Tabular Method Review: Chapter 13	13.2, 13.3, 13.4, RV CHP 13	HW Sec 13.2 HW Sec 13.3 HW Sec 13.4
3/31	TEST 3: Chapters 12 and 13 14.1 Functions of Several Variables** 14.2 Partial Derivatives**	14.1**, 14.2**	HW Sec 14.1** HW Sec 14.2**
4/7	14.3 Maxima and Minima** 14.4 Lagrange Multipliers** 14.5 Method of Least Squares**	14.3**, 14.4**, 14.5**	HW Sec 14.3** HW Sec 14.4** HW Sec 14.5**
4/14	14.6 Double Integrals Over Rectangular Regions** 14.7 Double Integrals Over More General Regions**	14.6**, 14.7**	HW sec 14.6** HW Sec 14.7**
4/21	Review: Chapter 14** TEST 4 Chapter 14** Overview of Final Exam	RV CHP 14**	
4/28	Project due review for Final Exam		
5/5	Final Exam on Tuesday, May 5 @ 2:50 PM		Tuesday, May 5 @ 2:50 PM

University/College Policies

Please see the University Policies below.

COVID-19 Related Policies

If you have tested positive for COVID-19, please refer to the Student Handbook, Appendix A (Attendance Rule) for instructions.

Required Class Attendance

Students are expected to attend every class in person (or virtually, if the class is online) and to complete all assignments. If you cannot attend class, it is your responsibility to communicate absences with your professors. The faculty member will decide if your excuse is valid and thus may provide lecture materials of the class. According to University policy, acceptable reasons for an absence, which cannot affect a student's grade, include:

- Participation in an authorized University activity.
- Death or major illness in a student's immediate family.
- Illness of a dependent family member.
- Participation in legal proceedings or administrative procedures that require a student's presence.
- Religious holy day.
- Illness that is too severe or contagious for the student to attend class.
- Required participation in military duties.
- Mandatory admission interviews for professional or graduate school which cannot be rescheduled.

Students are responsible for providing satisfactory evidence to faculty members within seven calendar days of their absence and return to class. They must substantiate the reason for the absence. If the absence is excused, faculty members must either provide students with the opportunity to make up the exam or other work missed, or provide a satisfactory alternative to complete the exam or other work missed within 30 calendar days from the date of absence. Students who miss class due to a University-sponsored activity are responsible for identifying their absences to their instructors with as much advance notice as possible.

Classroom Behavior (applies to online or Face-to-Face Classes)

In the classroom, students are expected to listen attentively, participate respectfully, and adhere to established rules. Behavior that interferes with the class lecture may result in disciplinary action, ensuring a productive and respectful learning environment for everyone. Any disputes over academic matters should be addressed calmly and constructively, ideally during designated times such as office hours or after class. If a student does not agree with a decision, they can request a meeting with the instructor to discuss their concerns in more detail. Should further resolution be needed, the student may escalate the matter to the department head or use formal grievance procedures as outlined in the sections below. (please refer to Student Handbook Article 4 (https://www.tamiu.edu/handbook/article-04.shtml)).

TAMIU Honor Code: Plagiarism and Cheating

As a TAMIU student, you are bound by the TAMIU Honor Code to conduct yourself ethically in all your activities as a TAMIU student and to report violations of the Honor Code. Please read carefully the Student Handbook Article 7 and Article 10 available at Student Handbook (https://www.tamiu.edu/handbook/index.shtml).

We are committed to strict enforcement of the Honor Code. Violations of the Honor Code tend to involve claiming work that is not one's own, most commonly plagiarism in written assignments and any form of cheating on exams and other types of assignments.

Plagiarism is the presentation of someone else's work as your own. It occurs when you:

1. Borrow someone else's facts, ideas, or opinions and put them entirely in your own words. You must acknowledge that these thoughts are not your own by immediately citing the source in your paper. Failure to do this is plagiarism.
2. Borrow someone else's words (short phrases, clauses, or sentences), you must enclose the copied words in quotation marks as well as citing the source. Failure to do this is plagiarism.
3. Present someone else's paper or exam (stolen, borrowed, or bought) as your own. You have committed a clearly intentional form of intellectual theft and have put your academic future in jeopardy. This is the worst form of plagiarism.

Here is another explanation from the 2020, seventh edition of the Manual of The American Psychological Association (APA):

"Plagiarism is the act of presenting the words, idea, or images of another as your own; it denies authors or creators of content the credit they are due. Whether deliberate or unintentional, plagiarism violates ethical standards in scholarship" (p. 254). This same principle applies to the illicit use of AI.

Plagiarism: Researchers do not claim the words and ideas of another as their own; they give credit where credit is due. Quotations marks should be used to indicate the exact words of another. Each time you paraphrase another author (i.e., summarize a passage or rearrange the order of a sentence and change some of the words), you need to credit the source in the text. The key element of this principle is that authors do not present the work of another as if it were their own words. This can extend to ideas as well as written words. If authors model a study after one done by someone else, the originating author should be given credit. If the rationale for a study was suggested in the discussion section of someone else's article, the person should be given credit. Given the free exchange of ideas, which is very important for the health of intellectual discourse, authors may not know where

an idea for a study originated. If authors do know, however, they should acknowledge the source; this includes personal communications (p. 11). For guidance on proper documentation, consult the Academic Success Center or a recommended guide to documentation and research such as the Manual of the APA or the MLA Handbook for Writers of Research Papers. If you still have doubts concerning proper documentation, seek advice from your instructor prior to submitting a final draft.

TAMIU has penalties for plagiarism and cheating.

- **Penalties for Plagiarism**: Should a faculty member discover that a student has committed plagiarism, the student should receive a grade of 'F' in that course and the matter will be referred to the Honor Council for possible disciplinary action. The faculty member, however, may elect to give freshmen and sophomore students a "zero" for the assignment and to allow them to revise the assignment up to a grade of "F" (50%) if they believe that the student plagiarized out of ignorance or carelessness and not out of an attempt to deceive in order to earn an unmerited grade; the instructor must still report the offense to the Honor Council. This option should not be available to juniors, seniors, or graduate students, who cannot reasonably claim ignorance of documentation rules as an excuse. For repeat offenders in undergraduate courses or for an offender in any graduate course, the penalty for plagiarism is likely to include suspension or expulsion from the university.
  - *Caution*: Be very careful what you upload to Turnitin or send to your professor for evaluation. Whatever you upload for evaluation will be considered your final, approved draft. If it is plagiarized, you will be held responsible. The excuse that "it was only a draft" will not be accepted.
  - *Caution*: Also, do not share your electronic files with others. If you do, you are responsible for the possible consequences. If another student takes your file of a paper and changes the name to his or her name and submits it and you also submit the paper, we will hold both of you responsible for plagiarism. It is impossible for us to know with certainty who wrote the paper and who stole it. And, of course, we cannot know if there was collusion between you and the other student in the matter.
- **Penalties for Cheating**: Should a faculty member discover a student cheating on an exam or quiz or other class project, the student should receive a "zero" for the assignment and not be allowed to make the assignment up. The incident should be reported to the chair of the department and to the Honor Council. If the cheating is extensive, however, or if the assignment constitutes a major grade for the course (e.g., a final exam), or if the student has cheated in the past, the student should receive an "F" in the course, and the matter should be referred to the Honor Council. Additional penalties, including suspension or expulsion from the university may be imposed. Under no circumstances should a student who deserves an "F" in the course be allowed to withdraw from the course with a "W."
  - *Caution*: Chat groups that start off as "study groups" can easily devolve into "cheating groups." Be very careful not to join or remain any chat group if it begins to discuss specific information about exams or assignments that are meant to require individual work. If you are a member of such a group and it begins to cheat, you will be held responsible along with all the other members of the group. The TAMIU Honor Code requires that you report any such instances of cheating.
- **Student Right of Appeal**: Faculty will notify students immediately via the student's TAMIU e- mail account that they have submitted plagiarized work. Students have the right to appeal a faculty member's charge of academic dishonesty by notifying the TAMIU Honor Council of their intent to appeal as long as the notification of appeal comes within 10 business days of the faculty member's e-mail message to the student and/or the Office of Student Conduct and Community Engagement. The Student Handbook provides more details.

Use of Work in Two or More Courses

You may not submit work completed in one course for a grade in a second course unless you receive explicit permission to do so by the instructor of the second course. In general, you should get credit for a work product only once.

AI Policies

Your instructor will provide you with their personal policy on the use of AI in the classroom setting and associated coursework.

TAMIU E-Mail and SafeZone

Personal Announcements sent to students through TAMIU E-mail (tamiu.edu or dusty email) are the official means of communicating course and university business with students and faculty –not the U.S. Mail and no other e-mail addresses. Students and faculty must check their TAMIU e-mail accounts regularly, if not daily. Not having seen an important TAMIU e-mail or message from a faculty member, chair, or dean is not accepted as an excuse for failure to take important action.

Students, faculty, and staff are encouraged to download the SafeZone app, which is a free mobile app for all University faculty, staff, and students. SafeZone allows you to: report safety concerns (24/7), get connected with mental health professionals, activate location sharing with authorities, and anonymously report incidents. Go to SafeZone (https://www.tamiu.edu/adminis/police/safezone/index.shtml) for more information.

Copyright Restrictions

The Copyright Act of 1976 grants to copyright owners the exclusive right to reproduce their works and distribute copies of their work. Works that receive copyright protection include published works such as a textbook. Copying a textbook without permission from the owner of the copyright may constitute copyright infringement. Civil and criminal penalties may be assessed for copyright infringement. Civil penalties include damages up to $100,000; criminal penalties include a fine up to $250,000 and imprisonment. Copyright laws do not allow students and professors to make photocopies of copyrighted materials, but you may copy a limited portion of a work, such as article from a journal or a chapter from a book for your own personal academic use or, in the case of a professor, for personal, limited classroom use. In general, the extent of your copying should not

suggest that the purpose or the effect of your copying is to avoid paying for the materials. And, of course, you may not sell these copies for a profit. Thus, students who copy textbooks to avoid buying them or professors who provide photocopies of textbooks to enable students to save money are violating the law.

Students with Disabilities

Texas A&M International University seeks to provide reasonable accommodations for all qualified persons with disabilities. This University will adhere to all applicable federal, state, and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal education opportunity. It is the student's responsibility to register with the Office of Disability Services for Students located in Student Center 124. This office will contact the faculty member to recommend specific, reasonable accommodations. Faculty are prohibited from making accommodations based solely on communications from students. They may make accommodations only when provided documentation by the Office of Disability Services for Students.

For accommodations or assistance with disabilities, contact the Disability Coordinator, Karla Pedraza, at karla.pedraza@tamiu.edu, call 956.326.2763, or visit Student Center 124.

Student Attendance and Leave of Absence (LOA) Policy

As part of our efforts to assist and encourage all students towards graduation, TAMIU provides
LOA's for students, including pregnant/parenting students, in accordance with the Attendance Rule (Section 3.07) and the Student LOA Rule (Section 3.08), which includes the "Leave of Absence Request" form. Both rules can be found in the TAMIU Student Handbook (URL: Student Handbook (https://www.tamiu.edu/handbook/index.shtml)).

Pregnant and Parenting Students

Under Title IX of the Education Amendments of 1972, harassment based on sex, including harassment because of pregnancy or related conditions, is prohibited. A pregnant/parenting student must be granted an absence for as long as the student's physician deems the absence medically necessary. It is a violation of Title IX to ask for documentation relative to the pregnant/parenting student's status beyond what would be required for other medical conditions. Students who experience or observe alleged or suspected discrimination due to their pregnant/parenting status, should report to the TAMIU Title IX Coordinator (Lorissa M. Cortez, 5201 University Boulevard, KLM 159B, Laredo, TX 78041, TitleIX@tamiu.edu, 956.326.2857) and/or the Office of Civil Rights (Dallas Office, U.S. Department of Education, 1999 Bryan Street, Suite 1620, Dallas, TX 75201-6810, 214.661.9600). You can also report it on TAMIU's anonymous electronic reporting site, *Report It*, at https://www.tamiu.edu/reportit (https://www.tamiu.edu/reportit/index.shtml).

TAMIU advises a pregnant/parenting student to notify their professor once the student is aware that accommodations for such will be necessary. It is recommended that the student and professor develop a reasonable plan for the student's completion of missed coursework or assignments. The Office of Compliance (Lorissa M. Cortez, lorissam.cortez@tamiu.edu) can assist the student and professor in working out the reasonable accommodation. For other questions or concerns regarding Title IX compliance related to pregnant/parenting students, contact the Title IX Coordinator. In the event that a student needs a leave of absence for a substantial period of time, TAMIU urges the student to consider a Leave of Absence (LOA) as outlined in the TAMIU *Student Handbook*.#As part of our efforts to assist and encourage all students towards graduation, TAMIU provides LOAs for students, including pregnant/parenting students, in accordance with the Attendance Rule and the Student LOA Rule.#Both rules can be found in the TAMIU *Student Handbook*.

For parenting-related rights, accommodations, and resources, contact the Parenting Liaison, Mayra Hernandez, at mghernandez@tamiu.edu, call 956.326.2265, or visit Student Center 226.

For pregnancy-related rights, accommodations, and resources, contact the TIX Coordinator, Lorissa Cortez, at lorissaM.cortez@tamiu.edu, call 956.326.2857, or visit Killam Library 159.

Anti-Discrimination/Title IX

TAMIU does not discriminate or permit harassment against any individual on the basis of race, color, sex, religion, national origin, age, disability, genetic information, veteran status, educational programs, or employment. If you would like to file a complaint relative to Title IX or any civil rights violation, please contact the TAMIU Director of Equal Opportunity and Diversity/Title IX Coordinator, Lorissa M. Cortez, 5201 University Boulevard, Killam Library 159B, Laredo, TX 78041, TitleIX@tamiu.edu, 956.326.2857, via the anonymous electronic reporting website, ReportIt (https://www.tamiu.edu/reportit) and/or the Office of Civil Rights (Dallas Office), U.S. Department of Education, 1999 Bryan Street, Suite 1620, Dallas, TX 75201-6810, 214.661.9600.

Incompletes

Students who are unable to complete a course should withdraw from the course before the final date for withdrawal and receive a "W." To qualify for an "incomplete" and thus have the opportunity to complete the course at a later date, a student must meet the following criteria:

1. The student must have completed 90% of the course work assigned before the final date for withdrawing from a course with a "W", and the student must be passing the course;

2. The student cannot complete the course because an accident, an illness, or a traumatic personal or family event occurred after the final date for withdrawal from a course;
3. The student must sign an "Incomplete Grade Contract" and secure signatures of approval from the professor and the college dean.
4. The student must agree to complete the missing course work before the end of the next long semester; failure to meet this deadline will cause the "I" to automatically be converted to an "F"; extensions to this deadline may be granted by the dean of the college. This is the general policy regarding the circumstances under which an "incomplete" may be granted, but under exceptional circumstances, a student may receive an incomplete who does not meet all of the criteria above if the faculty member, department chair, and dean recommend it.

WIN Contracts

The Department of Biology and Chemistry does not permit WIN contracts. For other departments within the college, WIN Contracts are offered only under exceptional circumstances and are limited to graduating seniors. Only courses offered by full-time TAMIU faculty or TAMIU instructors are eligible to be contracted for the WIN requirement. However, a WIN contract for a course taught by an adjunct may be approved, with special permission from the department chair and dean. Students must seek approval before beginning any work for the WIN Contract. No student will contract more than one course per semester. Summer WIN Contracts must continue through both summer sessions.

Student Responsibility for Dropping a Course

It is the responsibility of the student to drop the course before the final date for withdrawal from a course. Faculty members, in fact, may not drop a student from a course without getting the approval of their department chair and dean.

Independent Study Course

Independent Study (IS) courses are offered only under exceptional circumstances. Required courses intended to build academic skills may not be taken as IS (e.g., clinical supervision and internships). No student will take more than one IS course per semester. Moreover, IS courses are limited to seniors and graduate students. Summer IS course must continue through both summer sessions.

Grade Changes & Appeals

Faculty are authorized to change final grades only when they have committed a computational error or an error in recording a grade, and they must receive the approval of their department chairs and the dean to change the grade. As part of that approval, they must attach a detailed explanation of the reason for the mistake. Only in rare cases would another reason be entertained as legitimate for a grade change. A student who is unhappy with his or her grade on an assignment must discuss the situation with the faculty member teaching the course. If students believe that they have been graded unfairly, they have the right to appeal the grade using a grade appeal process in the Student Handbook and in the Faculty Handbook.

Final Examination

All courses in all colleges must include a comprehensive exam or performance and be given on the date and time specified by the Academic Calendar and the Final Exam schedule published by the Registrar's Office. In the College of Arts & Sciences all final exams must contain a written component. The written component should comprise at least 20% of the final exam grade. Exceptions to this policy must receive the approval of the department chair and the dean at the beginning of the semester.

Mental Health and Well-Being

The university aims to provide students with essential knowledge and tools to understand and support mental health. As part of our commitment to your well-being, we offer access to Telus Health, a service available 24/7/365 via chat, phone, or webinar. Scan the QR code to download the app and explore the resources available to you for guidance and support whenever you need it. The Telus app is available to download directly from TELUS (tamiu.edu) (https://www.tamiu.edu/counseling/telus/) or from the Apple App Store and Google Play.
